IN THE BEE TO-DAY

WEATHER.

The official local forecast for to-day and to-morrow is clear, slightly warmer.

Observer Hagen says: Unusually clear and pleasant weather prevails throughout the United States and Canada to-day. The lowest temperature, 6 degrees above, covers the St. Lawrence valley, and the highest, 52 degrees, above extends over the Florida peninsular. The low area that appeared in the northwest yesterday has disappeared, and we may now reasonably expect good weather until at least Monday, with the temperature ranging from 25 degrees to 35 degrees. It is too early to forecast Christmas weather, but I think that in the light of storm frequency we may count on one storm during Christmas week. The highest temperature yesterday was 28 degrees, the lowest this morning was 16 degrees.

Washington, Dec. 18.—Forecast for western New York: Local showers on the lakes, fair in the interior; southerly winds; fair and warmer Saturday.

For Ohio: Warmer; fair to-day and Saturday; winds shifting to southerly.

For Indiana and Illinois: Warmer; fair; southerly winds; fair on Saturday.

For Michigan and Wisconsin: Generally fair; warmer to-day and Saturday; southwesterly winds.

HE'S A DEMOCRAT

And Republicans Will Oppose His Confirmation.

Progress Made by the Inter-Continental Railroad.

Reports From the Surveys Received in Washington.

South American People Enthusiastic.

Senator Gallinger to Press the Consideration of His Bill to Prevent the Employment of Aliens by the Government.

Washington, Dec. 18.—It is said there is a disposition on the part of some republican senators to resist the confirmation of Mr. Dallas of Pennsylvania, one of the two democrats nominated by President Harrison for circuit judgeships. The opposition is said to come from Senators Quay and Cameron, seconded by Senator Higgins of Delaware.

In regard to this appointment, Senator Higgins said he considered that the president had made a grievous error in the appointment of a democrat to that place on a Pennsylvania circuit. The equilibrium of the two parties had been secured, he thought, by the appointment of Chief Justice Fuller and others by Mr. Cleveland.

There was no danger, he said, that there would be too many republicans, for the parties were so evenly divided that there was opportunity for a change at any time. The senator did not want to be considered as reflecting upon the president in any way whatever.

Opposed to Aliens.

Senator Gallinger says he will press the consideration of his bill for the dismissal of all aliens in government employ. There has been an unwritten law in some of the departments for many years forbidding the employment of aliens. A number of men who have received appointments to positions in the treasury department, and who have come to Washington to take them, have been obliged to return to their homes because it was learned on their arrival here that they were not citizens of the United States.

A recent case was that of a man from Pennsylvania appointed to the position of skilled laborer in the treasury department.

He had given up a good position to come to Washington, but, under Secretary Foster's rule, the department was obliged to refuse to appoint him, although he had taken out his first papers.

Intercontinental Railroad.

The executive committee of the intercontinental railway has been in session for several days in this city engaged in reviewing reports received from engineers, officers and others concerning the project. There are three surveying parties in the field. The first surveying corps, which is under the leadership of Capt. M. M. Macomb, of the Fourth United States artillery, has surveyed three lines through Guatemala, from the Mexican boundary to Guatemala City. The most popular route runs through the coffee country, the second follows the coast, and the third is across the highlands in the interior.

Wm. F. Shunk has charge of the second party, which left Quito, in Ecuador, last June, to survey northward. They had reached the City of Pappegan, at the head of the Cauco river, when last heard from, and are working down the river toward Panama.

The third party started southward from Quito last fall under the leadership of J. M. Miller, but Mr. Miller's health was broken by the climate and he was obliged to return to the United States, leaving Mr. Kelly in charge.

The corps has surveyed a distance of 450 miles, reaching the boundary of Peru. They will stretch their chains along the Maranon river to Cero de Pasto, the terminus of the New Orola railroad and expect to complete their work in 18 months. Next summer another corps will be organized to survey a line through Bolivia to form a connection with the new Brazilian line leading to Rio.

The engineers report that their work has not proven nearly so difficult as was expected. The country was said to be practically impassable for a railroad, but no insurmountable difficulties have been encountered.

The inhabitants have received the surveyors warmly all along their routes. Banquets and speechmaking are almost daily incidents of the work. At many places the forerunners of the great road have been welcomed by bands and military displays.

The press of South America is practically unanimous in its support of the project. At a banquet given the North Americans in Quito was displayed for a center piece on the table a mammoth figure in butter of the United States teaching the nations of South America.

THE NEW MERCIER CABINET.

Quebec, Dec. 18.—The latest news concerning the dismissal of the Mercier ministry is that the new one will be composed as follows: Senator De Boucherville, premier; the Hon. L. O. Taillon, G. A. Nantel, J. S. Hall, J. I. McIntosh, Thomas Chase Casgrain and Charles Fitzpatrick. The new cabinet does not promise to have a long life.

BATON ROUGE CONVENTION.

Baton Rouge, Dec. 18.—The following ticket has been nominated by the combined convention: For governor, Murphy J. Foster; lieutenant-governor, Charles Parlange; secretary of state, Thomas S. Adams; treasurer, John Pickett; attorney-general, Milton J. Cunningham; superintendent of education, A. D. Lafargue; auditor, W. W. Heard.

HAD MURDER IN HIS HEART

A Tramp's Awful Deed on a Freight Train.

A Brakeman Who Had Ordered Him Off is Pushed Into a River Sixty Feet Below.

Fort Wayne, Ind., Dec. 18.—Frank Kimmel, a brakeman on the Fort Wayne road, Wednesday night found a tramp riding on the bumpers when his train was near Warsaw.

The fellow muttered an oath when Kimmel roughly told him to get off. Kimmel then went about his business and thought no more of the matter.

The tramp, it seems, boarded the train again as soon as Kimmel's back was turned. He seemed to have murder in his heart, for when the train reached St. Mary's bridge, which is 60 feet above the river, he sneaked up behind the brakeman and shoved him off the train. Poor Kimmel, with an awful cry, fell headlong into the river, receiving fatal injuries. The tramp escaped.

FATALLY SHOT.

Well-Known St. Louis People Get Into Trouble.

St. Louis, Dec. 18.—Late last evening Dr. Thomas A. Gordon, one of the leading and wealthiest physicians of the city, shot and fatally wounded John F. Stegge, a large wholesale and retail fish dealer.

The men had borne an ill-feeling toward each other for some time because of reports, whether true or not, could not be learned, that Dr. Gordon had attempted a criminal operation upon a beautiful young daughter of Stegge.

The men met in front of their residences, which adjoin, and a quarrel began, in the course of which Stegge, according to Dr. Gordon, assaulted the physician, beating him severely.

Gordon, during the melee, managed to draw a pistol and, firing two shots at random, brought down his man with one ball.

WAPAK NOTES.

Wapakoneta, O., Dec. 18.—(Special)—Miss Flora Schubert filed suit in the common pleas court to-day against Benedict Huber to recover $624 with interest for work and labor performed. She has employed the best legal talent and the case will be bitterly contested.

Mr. and Mrs. George Miller, old residents of this county, celebrated their twenty-fifth wedding anniversary at their residence south of this city. They were recipients of many valuable presents.

MADE A GOOD HAUL.

New York, Dec. 18.—Burglars entered the bric-a-brac store of Baumgarten & Sons, at No. 321 Fifth avenue, on Wednesday morning, and, it is said, stole between $10,000 and $12,000 worth of silks and satins.

The goods were taken away in a wagon belonging to the firm which the thieves stole from the stable which adjoins the store. The police are completely at sea in the matter.

HAPPY SOCIAL EVENT.

A Brilliant Wedding Party at Defiance.

The Marriage of Miss Carrie May Houghton to Mr. Clarence E. Wells—Many Present From Abroad.

Defiance, Dec. 18.—(Special)—The marriage of Miss Carrie May Houghton to Mr. Clarence E. Wells, was solemnized at the residence of the bride's parents, Mr. and Mrs. Rufus A. Houghton, No. 662 Holgate avenue, Defiance, O., at 8 o'clock Wednesday evening.

The ceremony was performed by the Rev. Geo. S. May, of Grace church.

The bride wore a costume of white silk with court train, trimmed in embroidered chiffon and pearl and gold passementrie, and carried a boquet of bride's roses. The groom was attired in conventional black. The bride was attended by six bridesmaids, Miss Pheobe Selle, of Fort Wayne, Ind.; Miss Effie Scribner, of Napoleon, O.; Miss Nell Schroeder, of Decatur, Ill.; Miss Sylvia Chapman, of Oakland, Cal.; Miss Minnie Hooker and Miss Alice Hill, of Defiance.

Miss Selle occupied the position of maid of honor. Mr. Wm. H. Beyer, of Detroit, Mich., was the groom's best man, and Messrs. S. M. Stevens, R. P. Kettenring and Edward Chenevert, of Defiance, and Gustave and Edward Delzer, of Fort Wayne, Ind., were the ushers.

Bebe Carter and Minnie and Belle Houghton, three tiny nieces of the bride, attired in trailing gowns of white silk, and bearing in their hands roses and garlands, preceded the minister and stood at his left facing the bride and groom during the ceremony.

Aside from this the bridal party entered the middle one of the three parlors in the usual order and presented a very beautiful picture as they stood in the brilliantly lighted room during the performance of the impressive ceremony of the Episcopal church.

The rooms were decorated with yellow chrysanthemums and smilax and the bridesmaids each bore a boquet of Marechal Neil roses, their costumes blending in color with the flowers.

The wedding march was played by Miss Anna Burgland.

After congratulations had been extended supper was served and the happy couple departed for the west on the Baltimore & Ohio midnight train. They will make their home at Detroit after a brief wedding tour.

The bride received a profusion of beautiful gifts. She has been one of the most popular young ladies of the city, and bears with her the good wishes of a host of friends both here and elsewhere.

Telegrams of congratulation were received from friends in Cheyenne, Wyo., Oakland, Cala., St. Paul, Minn., Decatur, Ill., Peru, Ind., Chicago, Toledo and Detroit.

Those present from a distance were Dr. and Mrs. C. M. Fiser, of Mt. Blanchard, O.; Mr. and Mrs. H. N. Coffinberry and Mrs. H. A. Dewey, of Auburn, Ind.; Mr. and Mrs. Frank Wells, Andrews, Ind.; Mr. and Mrs. G. B. Houghton and Miss Georgia Houghton, Norwalk, O.; Miss Alice Houghton, Kalamazoo, Mich.; Mr. Ralph Houghton, Norwalk, O.; Mr. and Mrs. A. B. Scribner, Napoleon, O.; Mr. and Mrs. H. C. Gage, Toledo; Mr. and Mrs. George Goodell, Westminster, Vt., and Mr. and Mrs. S. R. Taylor, Fort Wayne, Ind.

THE LAW IS SATISFIED.

Fitzgerald Has Died on the Scaffold.

Another Futile Attempt Made to Commit Suicide—The Murderer Forgives His Enemies.

Columbus, Dec. 18.—W. E. Fitzgerald, the Youngtown murderer, was executed at the penitentiary annex this morning. He was brought on to the scaffold at 12:05 a. m., and pronounced dead 13 minutes afterward. He had nothing to say on the scaffold except to forgive his enemies.

The crime for which Fitzgerald was executed was the killing of Officer W. F. Freed of Youngstown, May 15 last. He had committed burglary and Freed, with other officers, were in the act of making an arrest when Fitzgerald opened fire. Freed received a fatal wound and another officer was seriously wounded. Fitzgerald narrowly escaped lynching at the time.

He was sentenced to hang November 19, but Gov. Campbell granted a respite to this date to give the attorneys an opportunity to carry the case to the supreme court on error. The decision of the lower court was sustained in each instance and the governor refused all further appeals for executive clemency.

The doomed man on Sunday night last sought suicide by the use of morphine, but he was resuscitated. He also tried to kill himself last night by pushing a pencil in his body at the heart.

So far as can be learned Fitzgerald was born in Oneida, N. Y., his parents dying when he was young, and he became identified with the criminal classes. He was sent to the penitentiary at Leavenworth, Ks., for five years for attempting to kill an officer. After serving a portion of the time he escaped and soon after landed in the Jackson, Mich., prison under the name of Edward Hanlon, where he served three years for larceny.

He was released last March and soon afterward married Miss Carrie McCarrick of Detroit, and his only good trait seems to have been his efforts to shield his wife from harm. Fitzgerald spent a quiet day at the annex with his wife and ate two hearty meals. Their final parting at 5 o'clock was very affecting.

POKED FUN AT A CORPSE.

A Dead Man's Face at a New York Window

Furnished Merriment for the "L" Road Trainmen.

An Investigation Proved That He Had Sought the Window to Get Fresh Air and Died in a Most Life-Like Position.

New York, Dec. 18.—The face of a man leaning out of a sixth-story window at 645 Greenwich street and looking down with a fixed stare at the elevated trains up and down the Ninth avenue line has attracted the attention of guards and excited their mirth since Sunday.

About 4:10 a. m. on that day Mr. Weaver, who lives in the house opposite No. 645, saw this man come to the window in his bed room. Opening it he leaned his elbows on the sill and looked down. He was fully dressed. From that time until Tuesday afternoon he remained in that posture, his head out of the window and his elbows on the sill.

The guardians on the "L" road trains didn't know what to think of the constant watching. They yelled every time they passed the house and cracked many jokes about the man. Finally they suspected that something was wrong, and when Deputy Coroner Donlin boarded a train the guard, who happened to know him, told him about the man in the window.

Dr. Donlin's curiosity was aroused. He decided to make an investigation and leaving the train at the Christopher street station went into the house, taking two policemen with him. They found the doors locked. After knocking and getting no response, the door was broken in.

Richard Harvey, the inmate, was kneeling at the window in a most life-like posture. He was dead. Death had been caused by apoplexy, and it is probable that, feeling the attack coming on Sunday morning, he ran to the window for air and died instantly after leaning on the sill.

Beside him on the floor was a pair of spectacles. On his person was found $18 in cash and two bank books, showing that on December 11 he had deposited $150 in the Bleecker Street Savings bank and also $140 in the Bowery Savings bank. He also had a certificate of honorable discharge from the navy, dated September 3, 1865.

The man probably knew that he would die suddenly some day. He prepared for this fate, in case he died away from home, by writing two letters, one addressed "To my wife Louisa," and the other "To the finder of my body," which were found on his person. The letter addressed to his wife was dated September 25. It reads:

"My Dear Wife: I feel very bad and am afraid I am on the verge of an apoplectic stroke. There will be found on my person $250. There is $100 due me from the Tin Roofers' association, No. 189 Bowery. Good-bye. Your loving husband."

The other letter was not dated or signed. It read:

"Sir: You will find $250 on my person which I wish you would forward to my wife and child, living at present in Reading, Hamilton county, Ohio, with my wife's father, Charles E. Liemann. There is also $100 due me from the burial relief fund of the Tin and Sheet-iron Workers' union, No. 189 Bowery."

FAVORS A NEW CANAL

Around the Great Falls of Niagara.

Senator Davis, of Minnesota, Has Introduced a Bill of Much Importance to Lake Interests.

Washington, Dec. 18.—A bill important to the commerce of the lakes has been introduced by Senator Davis, of Minnesota.

It provides for the construction of a ship canal around Niagara Falls of the passage of merchant ships and ships of war between Lake Erie and Lake Ontario, or the navigable waters connected therewith.

Said canal shall be created in Niagara county, in the state of New York, along and upon one of the waters for a ship canal heretofore surveyed by the United States, if either of such routes shall be found feasible.

The secretary of war shall cause the existing plans, surveys and estimates to be so revised and modified that the canal provided for in this act shall be of sufficient width, depth and capacity to easily, safely and expeditiously float along its whole length vessels of as great length, width, draught and tonnage as can be floated through the St. Mary's Falls canal and locks when these shall have been completed according to the present project. In case none of the routes heretofore surveyed shall be found feasible the secretary of war shall cause other surveys to be made. The bill provides for the appropriation of $1,000,000 to be applied toward the construction of said canal.

MEETING AMONG THE BOYS.

They Refused to Scrub Hammocks With Ice Water.

Newport, R. I., Dec. 18.—The apprentice boys on Coasters island refused to scrub hammocks yesterday because the water was icy and the air freezing and their health would be endangered.

Lieut.-Com. Lyons, in the absence of Capt. Bunce, called out the marines, who, with fixed bayonets, forced the boys to scrub the hammocks.

It is charged that this outbreak is simply the result of resentment of a very rigid and exacting discipline which has prevailed since Capt. Higginson's departure.

M'KNIGHT DISCHARGED.

The Bowling Green Lawyer Gets Out Once More.

Judge Donnelly Made An Interesting Ruling in the Court at Napoleon This Morning.

Napoleon, Dec. 18.—(Special)—Hiram P. McKnight, the alleged Bowling Green forger, who was brought before Judge Donnelly on a habeaus corpus writ, was discharged from custody this morning.

The judge maintained that he was possessed of this jurisdiction and that under the statute limitation the prisoner could not be longer held for trial as over one year had elapsed since his indictment.

REVOLT IN BRAZIL.

Buenos Ayres, Dec. 18.—Advices from the state of Rio Grande do Sul confirm the reports of a renewal of the revolt there. It is now said that the new revolution threatens to assume even larger proportions than was at first expected. Rival military chiefs are engaged in the strife.

RULING DYNASTY ATTACKED.

Herr Gregr Astonishes the Members of the Reichsrath.

Vienna, Dec. 18.—During a debate in the lower house of the reichsrath a stirring speech was made by Herr Gregr, leader of the Young Czechs, the Bohemian representatives, who demand the complete national emancipation of Bohemia.

Herr Gregr declared that the Hapsburgs would never have been kings of Bohemia if the ancestors of the present people of that country had foreseen the treatment to which the language and the nationality of the Czechs would be subjected under their rule.

The president of the house called the speaker to order.

Herr Gregr, continuing, urged that the restoration of Bohemia's rights would redound to the advantage of the monarchy. The present policy pursued in Bohemia, he declared, promoted disaffection among the people in regard to the monarchy.

The president again called the speaker to order.

Prince Schwartzenberg, in the name of Czechs, expressed indignation at Herr Gregr's remarks as insulting to the patriotic and loyal sentiments of the nation.

The prince's remarks were greeted with loud applause.

AFTER SIMON'S DOLLARS.

A Share of It Claimed by the Wife of a Grandson.

Romantic Story of Eccentric Tom Burnside and His Marriage to An English Actress.

Harrisburg, Pa., Dec. 18.—It is popular to quarrel over great estates. This morning it was announced that Mrs. Thomas Burnside has come from London, England, and will make an effort to get part of Simon Cameron's estate.

Mrs. Burnside was an actress before she married the grandson of the statesman. She was the equal of her husband in every respect.

Tom Burnside is a curious character. He is a Bohemian of the most pronounced type. His father, Judge Burnside, whose wife was Gen. Cameron's daughter, was a great man, but as eccentric as his son.

Gen. Cameron was so fond of Tom's mother that he built her a residence next to his own in Harrisburg.

Tom was a bright, wild boy, but later became a journalist. He quarreled with Simon Cameron, went to Chicago, made a hit, and was sent to London.

While there he was discharged by the paper that employed him and got poor. His grandfather was relentless, and Tom Burnside broke the black bread of life in the streets of London until some friends put him into the theatrical profession. There he met Miss Milholland, a young English beauty, whose heart he won, and they were married.

Early in his career he became one of the governors of the Savage Club and the ruling speaker, and when his grandfather visited Europe six years ago, for the first time since he was made minister to Russia, Burnside was in the height of his power as a journalist. Young Burnside did not call upon him, but the veteran had more regard for the boy. He sent a messenger to find the lad. Ed Perry, then of the Boston Herald, knew where Tom could be found and brought him to Morley's hotel, and, at the solicitations of a mutual friend of the two, Gen. Cameron left Tom Burnside $70,000 in trust for himself and his children.

Two days later the veteran made a visit to the home of his grandson, where a new born son greeted the great-grandfather's entrance. The reunion was complete, and he took Tom Burnside back into his life. The younger man continued to prosper and his grandfather was proud of him.

Two years after his grandfather had provided for the future of himself and family, he got mad at the girl who had joined lives with him, when he was poor, and began suit for divorce.

His wife is now at Harrisburg, at the home where the Camerons have been a tower of strength for generations. She wants support for herself and child.

J. Montgomery Foster, who is one of the trustees of Gen. Cameron's estate, and a man of figures, was present in London when this provision was made for Tom Burnside's children. How he will view the presence of the wife remains to be seen. Is it not strange that a rich man never dies without a fight over his dollars following?

ON THEIR MUSCLE.

A Lively Evening at the Maumee Athletic Club.

The Kerwin benefit at the rooms of the Maumee Athletic club last evening was an amusing affair, and about 150 people took in the sport.

Jack Ryan was master of ceremonies and Harry Beauregard time keeper.

The principal event of the evening was a "go" between Kerwin and a Toledo pipe line plumber named Tom Dobbins. The plumber was right in it and gave Kerwin quite a rub, putting him against the ropes once with a clear knock down blow.

The Canton avenue Rosebud and the Dark Secret, from the same territory, were due for a bout, but the Dark Secret being in the stoneyard the contest was postponed and the McCloy brothers filled in by giving Shakespearean recitations.

The set-to between Aubry and Gordon was spirited and caused much merriment.

Joe Smith, Harvey Maden, Jack Mullen, Ed Sullivan and Jim Carter also took part in the contest, which was pronounced very clever by all who witnessed it.

TO BREAK FLORENCE'S WILL

He Cut His Brothers Off Without a Cent.

They Will Go Into Court and Try and Get Part of the Property the Actor Had Accumulated.

New York, Dec. 18.—There is to be a contest over the will of the late W. J. Florence, the actor, which was filed for probate on Tuesday of this week, as certain relatives of Mr. Florence claim he had left a codicil which has in some manner disappeared.

In the will filed for probate, the entire estate, worth over $200,000, is left to the wife. The brothers and sisters of Mr. Florence, whose real name was Conlin, profess to be surprised that a codicil to the will has not been found.

Mr. Florence, they claim, repeatedly assured them that such a document had been drawn. They will, it is said, make every effort to find the missing codicil and, if necessary, will fight the existing will through all the courts.

THE BOYS WANT A FIGHT.

Callao, Dec. 18.—The United States steamer Baltimore will leave for San Francisco to-day. All on board are unreserved in their expression of indignation over their treatment at Valparaiso, and express the hope that congress will support the president in his demand for reparation.

A FALSE REPORT.

Valparaiso, Dec. 18.—There is no truth in the sensational report regarding a plan to burn the American legation whereby a pretext would be given for a mob entering the buildings and seizing the refugees.

REVOLUTION IN HONDURAS.

San Salvador, Dec. 18.—It is reported here that the revolution in Honduras still continues. No details, however, have been received. The government of Salvador is keeping its troops on the frontiers to prevent hostile demonstrations within its territory.

HAS PASSED INTO HISTORY

The Great Base Ball War Lives Only in Memory.

The Association Franchises Brought $118,000.

The Central League Talk is Taking Definite Shape and Steps May Soon Be Made for the New Organization.

Indianapolis, Dec. 18.—(Special)—The base ball deal, the greatest in the history of the national game, has been consummated and the delegates are departing for their homes, some of them wiser, some of them happier, and some of them sadder to a great degree.

The League is now in control and the old national agreement practically in force.

The one big result of the combination will be to put contract jumpers and the "foxy" player, whose chief aim is to "work" the community for all the money they can, and do as little ball playing as possible, below par, and place a premium on the hard-working and conscientious ball player.

There will be no opposition league for cranky ball players to hold as a club over their manager's head, and threaten to "jump" the first time any attempt is made to discipline them.

The monopolistic character of this new league is despotic in its purposes, and bids fair to have everything fixed like a jug—handle on one side only.

By the report, every Chicago player signed elsewhere, whose services were at the option of Spaulding's team, must remain there.

This will carry back Pfeffer, Kittridge, Hutchinson and others of Anson's colts. So far as contracts with players not reserved by contract options are concerned, the league will protect them, except, possibly, in the case of Rusie, who, President Day of New York says, will play with the Giants again or nowhere.

Von Der Ahe has long been playing the pirate, and wrecker, and from the look of things now the league has got him where they want him, and he may sadly regret before another year that he was instrumental in breaking up the association. Von Der Ahe is all for self, but he is in deep water now, and dealing with Spalding, Byrne, Conant and Soden is vastly different from dealing with the Borns, Phelps, and Von Der Horsts who ruled the association.

The intention of the new organization to "freeze out" the Association clubs not wanted was seen to be bad policy, as under such circumstances a formidable league would have been formed, and the patronage of the great cities once more divided.

The actual figures paid to each of the Association clubs which were demolished by the deal is as follows:

Athletics	$ 45,000
Boston	35,000
Columbus	18,000
Chicago	14,000
Milwaukee	6,000
Total	$118,000

President Soden, of the consolidated Boston clubs, is heartily in favor of the formation of a Central League, composed of Toledo, Detroit, Columbus, Indianapolis, Milwaukee, or such other cities whose location would make them desirable.

The proposed Central League will undoubtedly be formed, and if Toledo wants to join she can get in, for the ball men here all admitted that Toledo was a better ball town than either Columbus, Louisville, Milwaukee or Indianapolis, and they much regretted that the national sport had been given such a back-set in that city by the warring base ball factions.

With peace once more restored, and with the players of five great clubs thrown on the market, aside from the number of really excellent talent in what were the minor leagues last year, there is no question but what a Central League could be organized, on a low salary basis, fully as strong as was the Association two years ago.

SOME ONE KNOWS.

The gale had blown itself out with the night, and as the sun came up out of the still heaving ocean we went down to the beach to see what had happened to the old wreck, whose bones had been lying a stone's-throw away for many a month. There, high up on the sands, where a great wave had flung it just as the tide changed, lay a body—the body of a girl 17 or 18 years old.

We stood in awe for a long time, and when we advanced we stepped as softly as if we feared to awaken the dead. There she was, poor girl, her fingers locked together, her eyes half open, her hair down about her shoulders, and on her white face a look to call forth all your pity. The waters had been kind to her even in their savage fury.

While beams and planks had been wrenched from the old wreck and dashed in splinters on the shore, she was not even bruised. With tender hands we lifted the body higher up on the sands, and, by and by, when the coroner came and the fishermen gathered, we hoped to find out who she was. Never a line nor a scrap to identify her had she carried with her to her death.

She had a face which must have been winsome in life. She had a figure which had brought her flattery. Her wealth of chestnut hair was alone enough to make her proud. She had worn earrings, but they were missing; she had worn rings on her slender fingers, but they had disappeared. It was plain that she had gone about it in a deliberate way to conceal the identity of her corpse should the sea ever give it up.

"The body of a girl to us unknown," was our verdict, and the body was taken away across to the mainland, to be buried in the village cemetery.

And yet someone knows. There's a father somewhere, who is searching—a mother weeping and praying for her who will never return. That was not the face of a wicked girl. She had friends somewhere who loved her. One night, three or four days before the sea gave up the body, that girl leaped to her death because she could no longer face the world.

There is a man somewhere who drove her to the awful step—a man who knows that she is dead and who feels safer for it. She cannot rise up to accuse him—the law will not lay its hand upon him. He may go about smiling and laughing. He may even make himself believe that he had nothing to do with her death. But there is a hereafter, and some day that dead girl is to rise from her grave, though it be overgrown and forgotten for generations, and she will stand again in the garments she wore as the sea cast her up, her child-face wearing that pitiful, despairing look which filled our eyes with tears—and what word can that man utter in defense?—M. THE BOYCOTT DISCUSSED.

President Gompers Talks to the Delegates.

Resolutions on the Chicago Police.

The Union Label and Other Matters of Great Interest to Workingmen Considered at the Convention.

Birmingham, Ala., Dec. 18.—Much important business claimed the attention of the delegates to the convention of the American Federation of Labor yesterday.

President Gompers recommended the organization demand the passage of a law by congress, recognizing the first Monday in September as a legal holiday in the District of Columbia, and the territories under the jurisdiction of the general government, and a resolution to that effect was adopted.

When the question of boycotts was reached President Gompers spoke as follows:

"Every local organization seems to take upon itself the right to levy boycotts and spread them before the entire country. It seems to me that before the people should be asked to taboo the product of any firm, opportunity should be given for investigation and no boycott recognized unless approved by the convention or the executive council in the interim.

The boycott is a very powerful weapon in the hands of the wage workers, but if put on a firm unfairly, promiscuously, or without investigation, is likely to react upon us and destroy the usefulness of that method to obtain our rights. I trust this convention wil take some action by which it will distinctly formulate decisive action in reference to the levying and supporting of boycotts."

The matter was referred to a committee.

On the troubles that have grown out of the adoption of a uniform label, the president said:

"The last convention directed that a label be issued for the product of the members of the American Federation of Labor who have no other label of their own. Although the label has not been in great demand. I attribute it to the fact that we have had very little opportunity to make its issuance generally known. In connection with the issuance of the label it would be proper to call your attention to the fact that a decision was recently rendered by a justice of the supreme court of the state of Pennsylvania which, if allowed to stand, would be one of the severest blows which could be inflicted upon the rights of organized labor. It questions our right to issue a label certifying to the character of the product bearing it. In fact the decision of Judge Williams is, that inasmuch as the wage workers do not own the product, they cannot have a label certifying to the character of labor employed in its production. A more unjust decision, in the interest of the wealth possessors and against the wealth producers, has seldom been rendered, even in the darkest days of jurisprudence. Your attention is called to this decision, because if upheld it will render nugatory all efforts to place a label on the product of union labor. It is probably the first time that forgery and counterfeiting has been judicially and officially sanctioned. The officers of the ensuing term should be empowered to co-operate with the affiliated unions in order to secure such legislation as may be necessary to overcome the obstacles presented, or a reversal of the decision of the court in question."

The resolution denouncing the Chicago police, adopted by the American Federation of Labor, reads as follows:

"Whereas, The action of the Chicago police in breaking into two lawful and peaceful meetings of labor people of that city, on November 11 and 12, 1891, without warrant, was in violation of every principle of right and justice, injuring and arresting a number of members of said meetings, therefore be it

"Resolved, That the American Federation of Labor, in convention assembled, denounces such action as being dangerous not alone to the working people, but to all classes, as it tends to the usurpation of the people's authority and the substitution of an authority entirely foreign to the spirit of American institutions."

The resolution calling for a change in the form of goverument at Washington city, adopted this morning unanimously, and with practically no discussion, was as follows:

"Resolved, That the American Federation of Labor earnestly indorses the action of the labor organizations of the District of Columbia and joins in requesting the passage of a law re-establishing a government of the people, for the people, and by the people, in the capital of the nation."

In reference to the circular issued by the New York Central Labor Federation, denouncing President Gompers as a corruptionist in politics, and with prostituting his office and the federation to corrupt deals with New York city democrats, the committee on grievances reported this resolution:

"Resolved, That this federation in convention assembled do emphatically declare its faith in President Gompers as an honest, upright and earnest worker in the cause of labor, and that it absolutely belives him to be as far above bribery, political boodling and corruption as the stars are above the mother earth, and your committee further recommend that the incoming president be requested to use his best efforts toward strengthening and perfecting the organization known as the New York Federation of Labor affiliated with the American Federation of Labor."

The report was unanimously adopted by a standing vote amid great enthusiasm.

A resolution was adopted protesting against the failure of the government to enforce the 8-hour law.

The correctness of the maxim "nothing succeeds like success" is well exemplified in Ayer' Sarsaparilla. The most successful combination of alteratives and tonics, it always succeeds in curing diseases of the blood, and hence its wonderful popularity.

THIS IS THE LAST.

The Five Dollar Period Positively Expires With the Close of December, Those Desiring Must Avail Themselves of the Rate Now—There Will Be No Further Extension.

One thing should be clearly and distinctly stated at this time. This is positively and unequivocally the last month of the $5 treatment. Patients who desire to take treatment under this offer must avail themselves of it at once. There will be no further extension of time. Copeland and associates have sought to give all an opportunity of availing themselves of this merely nominal rate. They have extended the time three times, and December is the last month in which the offer holds good. All patients being under treatment or placing themselves under treatment before January 1, will be treated at the rate of $5 a month until cured.

OUR CURES ARE PERMANENT.

Read What a Gentleman Says Who Was Treated Last Summer.

Six months ago there was published in all of the Toledo papers the story of Mr. Joseph Coombs, who lives at 384 Indiana avenue. Mr. Coombs' case attracted widespread attention at the time, and there were many to say that the relief he found was only temporary and would soon pass away. Mr. Coombs, now desires to verify his statement of last July, and to testify to the permanency and make still stronger what he then said of his cure. Mr. Coombs said last July:

MR. JOSEPH COOMBS, 384 INDIANA AVE.

"A year ago I had la grippe, and it had left its deadly effects. My head and nose were so completely stopped up as to make it almost impossible for me to breathe. My eyes weak and watery, ringing noises in my ears, a constant hawking and spitting, trying to raise a substance that seemed to close my throat; the mucus would drop from the back of my head to the throat, which was a constant source of annoyance.

"I was pretty near a wreck. Everything I knew for the treatment of catarrh, and every physician I ever heard of I tried to relieve me of my suffering, but with no result. My head has at times, as I thought, come so near bursting that I would cry for 'help,' fearing my mind would be affected by the awful pain.

"In this condition I heard of Dr. Copeland and associates, and concluded to consult them. This I did, and also began treatment, and to-day I am so much better my whole life seems to have changed. I cannot say too much in praise of Dr. Copeland and associates, for they have certainly saved me from a fate worse than death, and let me say again, that as a citizen and a gentleman, I deem it my sacred duty to have my statement made public for the sake of others who, perhaps at this time, are where I was three weeks ago."

And now, six months after Mr. Coombs made the above statement, he says: "I am entirely cured and as healthy as ever I was. That statement of mine was NOT STRONG ENOUGH for the good you have done me. I will gladly see and answer all doubters of your skill and the permanence of your cures."

Mr. Joseph Coombs is employed as night watchman in the Toledo Blade building, where he can be seen and this statement readily verified.

REPRESENTATIVE MEN.

MR. C. E. McLEAN, 935 Indiana avenue, connected with Roth & Friedman's dyeing establishment, says: "Dr. Copeland and associates worked wonders in my case. My catarrhal trouble has disappeared under their skillful treatment. I cannot recommend them too highly."

MR. N. R. DULL, 2215 Lorlie street, contracting carpenter, says: "I recommend Dr. Copeland and associates as physicians of marked ability. They relieved me of a catarrhal complaint of long standing." ability. They relieved me of a catarrhal complaint of long standing."

MR. JOSEPH COOMBS, watchman at the "Blade" building, residing at 388 Indiana avenue, says: "To the diligent, faithful, scientific and skillful treatment I received of Dr. Copeland and associates do I attribute the fact of my being restored to health."

MR. EUGENE McCARTHY, a member of the Toledo police force, residing at 316 Knower street, says: "Dr. Copeland and associates cured me of an aggravating hay fever, and I unhesitatingly recommend these physicians."

UNSEXED WOMEN.

Justin McCarthy in his "History of Our Own Times" gives the following picture of colliery women in England 50 years ago. It is interesting because it is true, although it is hard to believe that such a state of things existed in a Christian country within the last century:

"In some of the coal mines women were literally employed as beasts of burden where the seam of coal was too narrow to allow them to stand upright, they had to crawl back and forward on all fours for fourteen or sixteen hours a day dragging the trucks laden with coals. The trucks were generally fastened to a chain which passed between the legs of the unfortunate women, and which was then connected with a belt which was strapped round their naked waists.

"Their only clothing often consisted of an old pair of trousers made of sacking; and they were uncovered from the waist up—uncovered, that is to say, except from the grime and filth that collected and clotted round them. All manner of hideous diseases were generated in their unsexed bodies. Unsexed almost literally some of them, because their chests were often flat and hard as those of men, and not a few of them lost all reproductive power—a happy condition, truly, under the circumstances, where women who bore children only went to the higher air for a week during their confinement and were then back at their work again. It would be superfluous to say that the immorality engendered by such a state of things was in exact keeping with the other evils which it brought about."

VALUE OF THE CROPS OF 1891.

No other crop of wheat, no other crop of corn, and no other crop of oats, has ever brought so large a sum to the farmers as the crops of 1891. This statement is based on the monthly crop report for December, which gives the average farm value of the principal crops, and while these averages are not perhaps in the highest degree statistically accurate, they are presumably about as correct in one year as in another On the basis of this report it may be reckoned that wheat brought to the farmers an average of 85.3 cents per bushel, against 83.8 cents last year, and with a yield of 588,000,000 bushels the crop would be worth to the producers $501,764,000, against only $334,773,678, the officially estimated value of last year's crop. A difference of about $167,000,000 in the farm value of wheat alone is certainly a strong indication that business during the winter and spring will be better than usual.

Again, the corn crop brought to the farmers an average of 42.2 cents, the yield being 2,075,000,000 bushels, close to the largest ever known, and while last year's short crop brought to the farmers 50.6 cents per bushel, the other large crop, that of 1889, brought only 28.3 cents. Thus the value of this crop to the producers appears to have been $875,650,000, while the last crop at higher prices brought only $754,433,451, according to the official estimate, and the same estimate made the value of the great crop of 1889 to the producers only $597,918,829. It is proper to remember that a large part of this crop, even more than of oats or of wheat, is consumed on farms where it is grown, and so the returns to the farmer in cash directly for corn aggregate much less. But if the farmers find it profitable to feed or otherwise use corn rather than to sell it, presumably they get back at least as much in the value of animals marketed or in other ways as they would have received if the corn itself had been sold .

The crop of oats averaged 32.2 cents per bushel, which on a crop of 758,000,000 bushels amounts to $244,076,000, whereas last year's short crop brought 42.4 cents per bushel, paying to the farmer only $222,048,486, according to the official estimate. This estimate for last year has never been equaled in any other year, although the crop was the smallest grown in eight years, but this year the crop appears to be a little the largest ever grown, and yet prices are so well maintained that the value to producers is $22,000,000 more than in any other year.—New York Commercial Bulletin.

THE WAY TO GO.

You have seen California frequently mentioned in newspapers and magazines. Perhaps a friend has been there and writes enthusiastic letters back home about the climate and the fruits. It makes you anxious to see the country for yourself.

The time to go is in the fall and winter. Then work here is least presssing and California climate is most pleasing. The way to go is via Santa Fe route, on one of that line's popular, personally-conducted parties, leaving Chicago every Saturday evening and leaving Kansas City every Sunday morning.

Special agents and porters in attendance. Pullman tourist sleepers are used, furnished with bedding, mattresses, toilet articles, etc. Second-class tickets honored. Write to Geo. E. Gilman, Michigan Passenger Agent Santa Fe route, 58 Griswold street, Detroit, Mich., for folder describing these excursions.

KICKERS.

We confess to a liking for a good, healthy kicker. He is own cousin to the crank. If things do not go to suit him, he makes his opinions known, and endeavors to set the world moving along in the right direction. He is not content to sit down and let "the other fellow" take all the good things of this life, and deprive him of his share. True, he may sometimes go too far, and kick just for the sake of kicking; then he becomes a nuisance. We can forgive him for that, however, when we consider the good he does. If his party nominates an unfit man for a public office, like a good American citizen he kicks over the traces, and endeavors to elect the better man. If the authorities of his town or city disregard the common weal for the sake of pelf, he kicks until he brings to bear the weight of public opinion upon the offenders. If a majority of his community succeed in securing the enactment of an unjust or oppressive law, he chivalrously kicks until he secures its modification or repeal. He is usually engaged in a war with oppression and wrong-doing, and has no milk-and-water sentiment to impel him to keep silent while wrong prevails. He knows his rights, "and, knowing them, dares maintain them." Though kicking continually against what he considers unjust, unwise or impolitic, and in most cases against injustice, wrong and abuse suffered by others rather than himself, he is usually a downright good fellow, anxious only to do right and to induce others to do likewise.

Good luck to the kicker! Oftener right than wrong, he can not well be spared.—Printer's Album.

THE LATE WRECK.

Suits Filed Against the Railroads To-Day.

Twenty-Five Thousand Dollars Wanted As Damages

In Each Case—Full Text of the Petitions as Drawn Up by Scribner & Hurd.

The first of the suits growing out of the recent wreck between the Lake Shore and Flint & Pere Marquette railroads was filed in the common pleas court of Lucas county this afternoon by Scribner & Hurd, who are attorneys for Patrick Taylor, John H. Conway, Warren L. Potter and John P. Nelson representing his wife, who was killed in the accident. This is only the beginning, as suits will follow in the case of each of the victims.

From the petitions filed the one for Mr. Taylor is given in full, as follows:

Patrick Taylor, plaintiff, v. The Lake Shore & Michigan Southern Railway company, defendant. Flint & Pere Marquette Railroad company, defendants.

The said plaintiff, Patrick Taylor, said defendants, the Lake Shore & Michigan Southern Railway companies and the Flint & Pere Marquette Railroad company and says that the said Lake Shore & Michigan Southern Railway Co. was at the time of the happening of the events hereinafter narrated and still is a railroad corporation organized under the laws of the state of Ohio, owning and operating a railroad extending from the city of Chicago, in the state of Illinois, through the states of Indiana, Michigan and Ohio to the city of Buffalo, in the state of New York. That said railroad extends through the said county of Lucas, in said state of Ohio. That the said Flint & Pere Marquette Railroad company is a corporation duly organized under the laws of the state of Michigan and doing business in the state of Ohio, having a principal office and managing agent and owning property in the county of Lucas in state of Ohio. That was at said time and still is accustomed to run its cars under a license from the said Lake Shore & Michigan Southern Railway company over the said company's tracks into the said city of Toledo.

Plaintiff further says that on the 28th day of November, 1891, he purchased from the agents of the said Lake Shore & Michigan Southern Railway company a ticket, paying therefor the full consideration demanded by the agents of said company which entitled him to ride on the passenger trains of said company from the said city of Chicago over its said railway through the said city of Toledo to the city of Buffalo.

That on the 28th day of November, 1891, at the said city of Chicago, in consideration of an agreement on the part of plaintiff to surrender to the said Lake Shore & Michigan Southern Railway company his said ticket prior to the time he should arrive at the said city of Buffalo, the said Lake Shore & Michigan Southern Railway company received plaintiff as a passenger on one of its passenger trains to be carried on said road from the said city of Chicago through the said city of Toledo to the said city of Buffalo.

Plaintiff further says that the said Lake Shore & Michigan Southern railway company own and control a certain railroad yard located on the line of its said railroad at the said city of Toledo, in Lucas county, Ohio, and extending from what is known as Air Line Junction to the Union depot in said city. That midway between the said Air Line Junction and the said Union depot is said yard, near the corner of the public highways in said city of Toledo, known as Marion street and Canal avenue, is a stone tunnel extending for a considerable distance under what is known as the Wabash and Erie or the Miami and Erie canal, the main track of the said Lake Shore railroad runs through the said town, the said railroad yard is covered with railroad tracks and switches over which trains and engines are constantly passing and passenger trains frequently pass over the said main track not more than two minutes apart. That it was the duty of the said Lake Shore railroad company to have provided in the said yard what is known as the block system, a system by which the engineer on one train is warned of the proximity of a train ahead of it in time to check the speed of his engine and avoid a collision. The said Lake Shore & Michigan Southern railway company carelessly and wrongfully neglected to provide such block system and thereby exposed the train upon which the plaintiff was riding to the danger of the collision which occurred as hereinafter set forth.

Plaintiff further says that the said Flint & Pere Marquette were licensed as aforesaid by the said Lake Shore & Michigan Southern Railway company and accustomed to run its passenger trains over the said main track from the said Air Line Junction through the said tunnel to the said Union depot, subject to the rules and regulations and control of the said Lake Shore & Michigan Southern Railway company.

That on the said 28th day of November, 1891, at 50 minutes after 4 o'clock in the evening, railroad time, the said passenger train on which plaintiff was riding was six minutes past due at said Air Line Junction, according to its schedule time, and a passenger train of the said Flint & Pere Marquette Railroad company was also past due at said railroad station, both of said trains being en route to the said Union depot over the said main track of the said Lake Shore & Michigan Southern Railway company. That at this time the said plaintiff and at the time of the collision hereinafter described the said plaintiff was sitting in a seat in the rear coach of the said Lake Shore & Michigan Southern passenger train known as number six. That at this time darkness had settled upon the said yard. That it was the duty of the said Lake Shore company at this time to have kept the said track clear for the passage of the said passenger train, especially in the vicinity of the said tunnel, where its shadows intensified the darkness of the evening. That at the said time the said Lake Shore & Michigan Southern Railway company, in disregard of its said duty, carelessly, wrongfully, and negligently permitted a freight train to be lying or slowly moving upon the said main track near the said tunnel.

That the said passenger train No. 6 on which plaintiff was riding as aforesaid passed the said Air Line Junction at the said time 4:55 o'clock railroad time in the evening of said 28th day of November, 1891, and proceeded over the said main track in the direction of the said tunnel. That the officers and employes of the said defendant in control of said train wrongfully and carelessly neglected and omitted to hang out at the rear of said train a light that would warn the engineer of the train following of the danger of a collision and enable him to check the speed of his train in time to avoid a collision. That when the said passenger train passed through the said tunnel the engineer thereof discovered the said freight train lying upon or slowly moving over the said track immediately ahead of them, and was compelled by reason thereof to check the speed of his said train and bring it almost if not entirely to a stop. That it became the duty of the officers of the said train immediately to send back a flagman to notify the engineer on the train that was following as hereinafter set forth to stop his train and thereby avoid a collision. That the officers of said train No. 6 neglected to perform his duty until it was too late to avoid the casualty that ensued as hereinafter described.

That a passenger train of the said Flint & Pere Marquette Railroad company, manned by its servants and employes, passed the said Air Line Junction over the said main track within two minutes after the passage of the said passenger train number six as aforesaid and proceeded over said track on its way to said Union depot. That the engineer and servants of said Flint & Pere Marquette Railroad company in control of said passenger train carelessly, wrongfully and negligently ran the said train at the undue excessive and dangerous speed for said yard of thirty-five miles an hour whereby and by reason of the negligence of the said Lake Shore & Michigan Southern Railway company in failing to provide the block system in said yard as aforesaid and in permitting the said freight train to obstruct the said track at this time and of its officers and servants on said train number six in omitting to hang out a lamp at the rear of said train for the protection and to send back its flagman to warn the engineer on said Flint & Pere Marquette railroad train as aforesaid the said Flint & Pere Marquette passenger train ran at said dangerous rate of speed through the said tunnel and crashed into the rear coach of the said Lake Shore train, in which plaintiff was riding, splitting it open and forcing its way into the middle of it, filling it with hot steam, causing the plaintiff to be thrown violently against the seats and front of the said coach to be severely burned and scalded on the face, head, neck, ears and hands and other severe and permanent injuries to receive, including internal injuries from inhaling the steam.

Plaintiff further says that by reason of the injuries so received and the said collision he has sustained a shock that has prostrated his nervous system. That he has suffered great mental and physical anguish and his constitution and health is permanently impaired, and he is disabled and disfigured for life. That he sustained the said injuries entirely by reason of the negligence of the said defendants and without any fault on his part and has sustained damages by reason of the premises in the sum of $25,000.

Wherefore he prays judgment against the said defendants for the sum of $25,000 his damages sustained as aforesaid.

DEEP WATER DELEGATES.

Resolutions Adopted at Detroit To-Day.

A Twenty-One Feet Channel is Demanded.

A Legislative Committee Organized to Push Matters, With T. W. Palmer as Chairman.

Detroit, Dec. 18.—At this morning's session of the waterways convention the committee on resolutions presented its report as follows:

Resolved, That this convention does hereby respectfully and earnestly request and urge congress to authorize the immediate commencement and speedy completion of an obstructed channel—not less than twenty feet in depth and of sufficient width—through the lakes and their connecting waters between Chicago, Duluth, Superior and Buffalo, and that the secretary of war be authorized to make contracts for the entire week and a sufficient sum of money be appropriated therefor.

The second resolution was the one introduced by Mr. Thompson of Duluth, providing for a survey for a deep sea channel.

A third resolution recommended that the convention strongly favor the improvement of the Hudson river to a navigable depth of 20 feet from Coxsackie to Troy.

A fourth urges congress to recognize the necessity for the most liberal appropriations for the establishment and maintenance of all needed lighthouses, fog signals, buoys and beacons throughout the entire chain of lakes, to the end that added security may be given to life and property.

These resolutions were adopted without a dissenting vote, and the committee on legislation was directed to take charge of the matter and present them in proper shape before congress.

Jesse H. Farwell, of Detroit, presented the following:

"Resolved, That congress be requested to formulate a definite plan whereby the convict labor of the several states may be concentrated and utilized in the construction of a ship canal from some point on the eastern portion of Lake Erie or Lake Ontario to the seaboard as soon as the most available route can be determined upon by the engineer corps of the army.

This resolution, together with several others of minor importance, were referred to the committee on resolutions to be reported upon at any subsequent convention.

A motion requesting each delegation to name one of its number to serve on the finance committee was carried, and the convention adjourned.

The legislative committee was organized immediately upon the adjournment of the convention. T. W. Palmer was chosen chairman, George H. Ely, of Cleveland, first vice-president; Wm. C. Maybury, Detroit, second vice-president, and C. H. Keep, of Buffalo, secretary. It was decided to print all unread papers in the regular proceedings of the convention. It was also decided that all matters pertaining to the presentation of the memorial and resolutions adopted by the convention to congress should be ready before January 10, and that as soon as notified every member of the legislative should present himself in Washington on the day specified to help push the matter.

The following members of the legislative committee were chosen as a subcommittee on finance: Robert Downey, Oswego, N. Y.; James Barden, Superior; T. B. Mills, West Superior; C. H. Keep, Buffalo; Judge Boies, Sandusky; J. S. Dunham, Chicago; J. McKay, Cleveland; R. E. Schuck, Sandusky; Newell A. Avery, Bay City; G. F. Outhwaite, Muskegon; T. F. Donohue, Saginaw; A. C. Cook, Washburne; Otto Fowle, Sault Ste. Marie; Peter White, Marquette; V. H. Youngman, Albany; F. B. Dougherty, Minneapolis, and William Livingstone, jr., Detroit. All other organized associations were also empowered to appoint a member on the sub-committee.

DEATH OF MRS. J. P. ELDERKIN.

Mrs. Belle, wife of J. P. Elderkin, sr., of Fremont, died at their home in that city at 5 o'clock yesterday afternoon, after an illness of a few days only. Mr. Elderkin is the father of Mrs. Dr. Fred Jaeger, of the East Side, and of J. P. Elderkin, jr., who is engaged in the insurance business in this city. The family have many friends in Toledo, who will hear of this death with sorrow and surprise. Grip followed by acute pneumonia was the fatal illness.

MUSICALE TO-NIGHT.

This evening the Young Ladies' Missionary society of St. John's M. E. church give a musicale at the residence of the pastor, Rev. A. J. Fish, on Bush street, near Superior. An interesting program of vocal and instrumental numbers will be rendered, not the least artistic of which will be a solo by Miss Jennie M. Jones, whose retiring disposition does not allow her to often appear in song in public. The young ladies will also have several articles suitable for Christmas gifts on sale, and a delightful evening generally is anticipated.

UNIVERSITY EXTENSION.

With their usual vim and vigor Toledoans are not letting interest in the university extension plan of study die out. On the contrary the interest is increasing. As noted elsewhere in the Bee the Central Labor union took favorable action last night. The Knights of Labor have also had the matter under consideration and some of them will at least attend the lecture courses of the studies taken up that appeal to them. Now the pulpit is to be heard from. On Sunday evening next the University Extension will be the theme of discourse in the First Congregational church, Rev. D. M. Fisk taking that for the subject of his sermon. It is likely the announcement will fill the church.

ELECTION OF OFFICERS.

At the annual meeting of the St. John the Baptist branch, No. 578, C. K. of A., held last evening, the following officers were elected:

Rev. Father Burns, spiritual director.
H. L. Deshetler, president.
Germani Poirroix, vice president.
Joel J. Dusseau, recording secretary.
A. H. Robest, financial secretary.
Oliver St. Arnaud, treasurer.
D. D. Deshetler, sergeant-at-arms.
Emere Ranger, sentinel.
Samuel Russell, H. G. Oligen, L. B. Deshetler, trustees.

UNIVERSITY EXTENSION.

Supt. Compton informs the Bee that he has just received a letter from the secretary of the University Extension work in Detroit, who saw the reports in the Bee of the interest manifested here, and volunteered information. The letter is an interesting one, showing deep interest in the work in that city. They have already completed several courses. Mr. Hoag, of the finance committee, reports a hearty acceptance of the idea wherever men and women have been approached on the subject. It looks as if Toledo would soon be enjoying university lectures at home. An excellent committee has the work in hand.

THE OLD, OLD STORY.

The Old, Old Story, a new society comedy drama, by Walter C. Bellows and Benjamin F. Roeder, will be seen for the first time in Toledo at the Wheeler opera house this and to-morrow evenings. The play was originally produced at the fashionable Lyceum theater in New York and was pronounced by the metropolitan critics superior to its predecessors, The Wife, and The Charity Ball. Its metropolitan success has been fully realized on the road and it comes to Toledo heralded with phenomenal success. The cast will introduce Fannie McIntyre, formerly leading lady of Hoyt's A Midnight Bell company, Ralph Stuart, late leading support of Effie Ellsler, and Percy West, famous as Mathew Culver in The Wife.

THE EAST SIDE XMAS GIFT.

Our Sixth ward citizens rejoice with exceeding joy at the advent of two new street cars on the Ironville line. They are beauties, from the Pullman shops, large and well ventilated, upholstered and painted in good shape. The Consolidated intends to replace all the other old cars on the East Side with new ones, as fast as they arrive. As the East Siders have always had to take the worn-out cars from other lines they are well pleased with their unexpected Christmas gift. Nine cars run over the bridge, three each to East Broadway, up Oak street, and down to Ironville. The Oak street and Ironville cars run every 20 minutes; the East Broadway cars every 12 minutes. This is providing very fair service for that part of the city, but it is a growing, booming ward of enterprising people we have over there, and they deserve the best.

WHAT THE PRESIDENT NEGLECTED

To Say in His Annual Message Would Have Interested Thousands.

President Harrison's annual message is a frank and able discussion of our national politics from the standpoint of his party. It also bears the impress of the President's just and patriotic personality. It is moderate in tone and chaste in style and is, for the most part, a perfunctory presentation of the topics which it has been the custom to include in the annual messages. The chief topic of interest which he neglected to mention in the document, and which, perhaps, would have proven interesting to thousands in all portions of the globe and in America especially:—The esteem in which the Kranich & Bach pianos are held by all who are the happy possessors of them, and who are thinking of the advisability of placing this rich toned instrument in their homes, and what he could have said on this subject would have given entire satisfaction to the cause of offense to any one. Perhaps he was not aware that J. W. Greene & Co. are showing them in large assortment of elegant cases at their warerooms in Pythian Castle.

If Griffin withdraws, his colleague, whom he called a hound, will be relieved of the responsibility of publicly opposing him.

The waterways convention in Detroit is composed of practical business men and its work can not fail to be beneficial to lake interests.

What a knave the republicans of Ohio have kept in the United States senate for thirty years, to be sure, and, according to their own confession, knew it all the time.

So Griffin will withdraw from the speakership contest in the interest of Foraker's candidacy for the senate. Generous soul, how he does consent to be kicked and cuffed for the "good of the party."

We may learn something from the Emperor of China. He has good sense enough to decline to take any part in the world's fair, declaring that his people are not to be humiliated by having the bars let down just for a time and purpose to be put up after them immediately.

It does not suit the republicans to learn that the democrats in congress will attack the tariff law in spots. The most offensive parts of the schedule will be amended by the house, and if the republicans do not like it their senate must assume the responsibility of defeating the will of the people, clearly expressed at the ballot box.

The gavel presented to Speaker Crisp by the citizens of Americus, Georgia, is of polished oak in solid gold bands, enclosed in a velvet-lined case. With it came the written assurance:

"We have every confidence that you will ever wield it with wisdom, justice and moderation."

So say we all of us.

The republicans of the senate will hardly dare object to the seating of Senator David B. Hill, as threatened. Such revolutionary proceedings would so completely unite the democrats of New York that the electoral vote of the state would be cast for any candidate for president whom the democrats might nominate. The people of the United States have already sternly rebuked the high-handed proceedings of the republican party and are in good mood to kick the party out of existence next year.

It is greatly to be deprecated that some democratic newspapers fall into the republican way of speaking of the result of the contest in the House as a victory for any faction. Speaker Crisp is a good democrat, an honest believer in tariff reform and if he shall prove to be the fair, dignified and judicial officer that is anticipated, then that is all the "victory" there is about it, and enough. It is silly to talk about presidential nominations hanging upon his election. It is undemocratic.

Great hue and cry is made of the success of the state department in trade negotiations with Germany. There is no concession made on the part of Germany, except a going back to the duties of 1885, and along with this is a menace, and an appeal to the commercial nations of Europe to unite against the defiant and unreasonable attitude of the United States. And this is heralded as a wonderful victory. The United States has lost ground in its moral standing before the world from the moment the monopolist took tighter clinch upon the administration at Washington and the McKinley law was passed.

Rev. R. A. Armstrong visited the United States and went home to lecture in Liverpool about us. Among other things he said:

"As a matter of fact an American citizen is under six several governments. He is under the national constitution, the national congress, the state constitution, the state legislature, the municipal constitution and the municipal legislature."

It now remains for the reverend gentleman to write a book. It is evident he has the same clear apprehension of our affairs that has led other eminent English tourists to rush into print immediately on their return from this country in order to show what they did not know.

It is proposed to hold a Catholic congress in Chicago during the time of the world's fair. This was the religious faith of Columbus, and of the queen who sent him forth. It was the faith of Marquette and of LaSalle, and the black-gowned priests who were its ministers were the first to lift the cross in the wildernesses of this once wild land, to tell its dusky inhabitants of Christianity. From that time to this, the Catholic church has prospered in this land of religious freedom. The proposed congress seems, therefore, one of the natural and proper celebrations of that year of anniversary commemorations. A part of the proposed program of the congress, as follows, indicates something of the good work upon which it will deliberate:

1. The rights of labor and the duties of capital.
2. Pauperism and the remedy.
3. Public and private charity; how to make these more effective and beneficial.
4. Beneficial workingmen's societies and societies for young men.
5. Life insurance and pension funds for workingmen.
6. Trade combinations and strikes.
7. Colonization.
8. The evils of drink and the importance of minimizing the plague.

The National Economist, published at Washington, D. C., is the official organ of the Farmers' Alliance and Industrial Union; that is, of the southern Farmers' Alliance. It has a wide circulation among the farmers of the south and west. Since Editor Grey surrendered the management of its editorial columns to Editor Macune the Economist has been a very unwise adviser, and some of its declarations have been so far from truth and reason there is no possibility of mistaking their character. They are willful untruths. Of this nature is a claim lately made in the columns of the Economist that "the old parties have abandoned the tariff as an issue and are engaged in a conspiracy to make the next campaign hinge solely upon a revival of war prejudices." Argument upon such a ridiculous statement is unnecessary. So far as the democratic party is concerned the war issue is as dead as Julius Caesar, as dead as Pharoah and his host. This is more than can be said for the republican party, of course, so long as such men as Elliot Furioso Shepard and Joseph Bellows Foraker are its accredited fuglemen. And this is one among many reasons why "conspiracy" is impossible between the two dominant parties, if by conspiracy the Economist means concerted action. The Economist underrates the intelligence of its constituency, and the true reading between the lines of its foolish assertions is that it apprehends the members of the alliance are recognizing that with the democratic party lies their best interests. To keep them from acting upon the knowledge the organ of the new party is itself conspiring to bring about "a revival of war prejudices." It cannot be done.

CLUBS AND SOCIETIES.

The Catholic Club—The Toledo Camera Club—Notes.

The meeting of the Catholic club last evening in the hall over Whitney & Currier's music store, was well attended, and was greatly enjoyed by those present. The program as announced in the Bee was carried out, and some additional numbers were given. Miss Anna Melcher's solo was first upon the program, and in response to an encore she sang a second time. Dr. Monroe's recitation of "Ostler Joe" elicited much applause. Mrs. Sarah J. Foley read a paper on "Spain in the Fifteenth Century." Miss Earley recited "The Roman Girl's Revenge" in an admirable manner. After routine business was transacted the members of the club devoted a little time to getting better acquainted with one another. The next meeting will be held Thursday evening, January 7.

A delightful affair in the near future is the New Year's reception which will be given by the ladies of the Toledo Camera club at the club rooms January 1, from 8 to 10 p. m. The ladies in charge are: Mesdames F. C. Wade, F. S. Anable, H. E. Richards, Lotta R. Wright, and Misses Bessie Caniff, Maud Caniff, J. Jay Coon, M. Georgia Ormond, Helen Marble.

The meeting of the Theosophical club last night was a pleasant and profitable one. The next meeting, on Thursday evening, January 7, will be at the same place, with Mr. and Mrs. John M. Wheeler, 222 Seventeenth street.

This afternoon the members of the Women's Colloquial club and their friends are listening to and discussing Mrs. A. E. Lang's paper: "Wanted—A Business Woman."

The Day Nursery circle of the King's Daughters meets at the nursery to-morrow afternoon, 101 Oak street.

GRIFFIN HAS WITHDRAWN.

The Speakership Contest Was Not Within His Reach.

Columbus, Dec. 18.—Representative Griffin last night acknowledged that he had withdrawn from the contest for the speakership, and will throw all his influence and strength to Mr. McGrew. He makes a strong argument in favor of the election of Mr. McGrew on the round of merit, saying that it is necessary to have a short and active session and an early adjournment, which results he thinks Mr. McGrew will surely bring about.

MILL OWNERS FAIL.

McDonald Bros., at Lacrosse, Make an Assignment.

Lacrosse, Wis., Dec. 18.—The failure of McDonald Bros., sawmill and steamboat owners, was announced yesterday afternoon. They make the assignment to George Ray, who gives a bond of $300,-000. Nothing can be learned about the liabilities.

The firm owns a sawmill here and 10 steamboats. During the last season it was necessary to hire six raft boats to fill their contracts owing to low water and the season's business was done at a heavy loss.

MUST LEAVE THE O. R. T.

Omaha, Neb., Dec. 18.—It was learned from a local officer of the Order of Railway Telegraphers last night that the C. & N. W. system had issued a general order that its operators must abandon the O. R. T., or quit the company's service. The officers said the order would be disobeyed and a strike would probably ensue.

PORTER'S CHILD DEAD.

Washington, Dec. 18.—Superintendent Robert P. Porter's youngest daughter, Alice, aged 3 years, died last night after a long and lingering illness.

"Out of His Own Mouth."

Ex-Congressman Niedringhaus, of St. Louis, told the president a few days ago that he (Niedringhaus) was making ten carloads of tin plate a day. He also told him that the chances for the republicans to carry the electoral vote of Missouri next year were excellent. The public can judge of the truth of the first statement by comparison with the last one.—New Delta.

Variety in Death, Not Life.

There are no strikes or "labor troubles" in Russia. Those peasants who refuse to work at the public rates decreed by the "Famine Commission" are sentenced to be flogged or sent to Siberia. There is not much variety to life in Russia, but there is a choice of several kinds of death, as by starving, flogging, freezing, or a combination of all in Siberia.—Kansas City Star.

The Sublimity of Cheek.

The great American people must view with considerable amusement the claim of the few spared monuments of their mercy on the republican side of the house that their party represents all the political virtue and the patriotism in the country. Cheek sometime becomes almost sublime.—New York World.

It's a Big Country, You Know.

America was treated to a very extensive free show of weather possibilities yesterday. Spring breezes were wafted in Dakota, snow and sleet gave a wintry reminder to New Englanders, and the Colorado people had a visitation from the Arctic regions, a blizzard of blizzards.—Boston Globe.

It Is Well Done.

Indiana's representative, Mr. Turpie, in the upper house of congress, has done well in offering a measure providing for the election of senators by direct popular vote. The change should commend itself to men of all political faiths.—Boston Herald.

Here's a Suggestion.

Yale's football surplus amounts to $20,-000. Can not the department employes at Washington be organized into football associations and do something for our needy treasury, which, some time ago, had a surplus.—Courier-Journal.

Remember It's a Great Strain.

At the lastest advices Mr. Blaine was still holding the republican party up by the tail. There are signs, however, that the party is growing restless under the strain.—St. Louis Republic.

THE CONVENTIONS.

Baltimore wants the prohibition national convention. There are few communities that know better what they need.—Pittsburg Press.

Milwaukee has guaranteed $100,000 to secure the national democratic convention. Indianapolis should remember that this means business.—Indianapolis Sentinel.

Milwaukee will send a carload of beer to Washington to entice the democratic national convention. St. Paul, not to be outdone, is brewing an auditorium.—Philadelphia Record.

Perhaps Mr. Quay and Mr. Dudley would have favored Cincinnati as their republican convention city had they known that she now claims to have the biggest soap factory in the world.—New York World.

CHICAGO PAPERS ON THE ROBBERY.

Suggestion to Postmaster Sexton: Perhaps the desperadoes who held up that mail wagon might be able to hold up the crumbling postoffice.—Times.

Chicago is keeping up with the procession in the matter of sensational robberies, but she should vary the unbroken monotony now by capturing and convicting a handful of highwaymen.—Mail.

The strange thing, however, is not the robbery, but the fact that the government should intrust large sums of money to the care of one man forced to travel through a dangerous and out-of-the-way neighborhood at night.—Herald.

MENTIONED ON THE STREETS

That the roof is being placed on the new armory building.

That "more room" is the desire of most of our city merchants for next year.

That work on the two new Polish churches is proceeding slowly but surely.

That the horse car looks very odd sandwiched between three or four electric cars.

That the storm doors are going up at the public buildings, such as hotels, banks, etc.

That farmers are glad of the freeze-up, since it enables them to get to the city for supplies.

That even the appearance of a cold snap makes a rush of business at the infirmary office.

That Judge Kelley, elected in November, has ascended the bench, and is now a full-fledged judge.

That the plans of the Pennsylvania road for extension of tracks, etc., will be a bonanza for East Toledo.

That the Ys propose beginning the New Year with early morning meeting, and close the day with a reception.

That this has been a busy week at Trinity church, and the state of affairs will last until after the holidays.

That the bogus check fiend is in sight in the neighborhood, and will likely fill an engagement in Toledo in due time.

That Ed Pixley's company of young lady cadets propose to put the drilling of the Toledo Cadets away in the shade.

That the building and loan companies come up smiling with a big year's business, and bright prospects for the future.

That police court officials might more profitably lend their aid in enforcing the laws than to be occupied nagging the chief.

That Toledo ought to have an addition of 20 policemen, and an increase of engine houses, with the full complement of men.

That an effort will be made to secure a full attendance of Toledo's militia companies at the inauguration of Gov. McKinley.

That the councilmen will have another twirl at the ordinance fixing the price of illuminating gas at their session on Monday evening.

That Col. Bonner and Col. Waldorf make a brace of colonels who keep tab on aspiring statesmen, and hold notes for future use.

That the managers of the local charitable institutions are preparing to gladden the hearts of their charges at the Christmas time.

That most of the persons injured in the late railroad accident are ready to go to their homes, having almost completely recovered.

That it is expected the Masonic temple elevator will be completed before the annual parties commence to be given by the various bodies.

That Toledoans generally would be gratified to learn of the Novelty glass works at Glassboro starting up; the property is too valuable to lie idle.

That Toledo Catholics will soon begin preparations to receive their new chief official, Bishop Horstman. He is expected early in the new year.

That several candidates for constable are still waiting for a chance to show their strength in a joint session of the council, but the call appeareth not.

That the hands of the coming legislature are to be heavily laid on the common pleas districts. There are a few democratic judges whose seats are wanted.

That if the theory that Friday is a bad day to begin anything is correct, what trouble there is in store for the new year, as it starts in business on the fated day.

That the Y. M. C. B. A. has secured the old Pythian hall at the corner of Summit and Jefferson streets, and will fit it up in the highest style for headquarters.

ABOUT PEOPLE.

Bret Harte is only 53, but his hair is snowy white. It is said that he will remain permanently abroad.

Gen. John M. Palmer is the tenth Kentucky-born senator who has represented Illinois at the national capital.

The Marquis of Hartington, even while the stormiest scenes are being enacted in the house of commons, peacefully sleeps on his bench in a sitting posture.

Bismarck is what in Germany they call a "chain-smoker," that is, he smokes from morning till night without a break, lighting one cigar with the end of the other.

Dr. W. H. Russell, the veteran correspondent of the London Times, after a dangerous illness, is preparing to go to Egypt for a sojourn of several months.

Speaker Crisp has a happy faculty of remembering names and faces, an invaluable accomplishment for a man in public life. He is also quick to place men he has heard of only casually.

Sir Edwin Arnold is said to admire Zola and reads all his books, but when he has got through with them he carefully puts them into the stove for fear his office boy should get hold of them.

The Duke of Clarence and Avondale, eldest son of the Prince of Wales, is an enthusiastic collector of photographs and has an immense collection, which escaped injury in the recent destructive fire at Sandringham.

Mlle. Elise St. Omer has begun a journey around the world in the interest of the Geographical Society of Paris. The journey is to last three years, and the traveler is to devote special attention to the lives and customs of women in the various countries which she visits.

CRISP'S COMMITTEES.

Speaker Crisp shouldn't have any trouble in fixing Sherman Hoar on the committees. Let him head the committee on ventilation.—Buffalo News.

A perusal of the esteemed New York Times makes it quite plain that Speaker Crisp is not consulting its editor concerning the make-up of his committees.—Washington Post.

Senator Teller of Colorado at the head of the senate committee on privileges and elections, vice Senator Hoar, is another left-handed compliment to the late lamented force bill. It seems to put another nail in its coffin.—Boston Herald.

The substitution of Senator Pettigrew of South Dakota for Frank Hiscock of New York as chairman of the senatorial committee on the world's fair augurs well for the success of the effort to secure national aid for that great national enterprise.—Chicago Times.

UNCLE JOHN.

If we understand the Commercial Gazette properly, John Sherman is fully as bad a man as he has been represented.—Zanesville Signal.

It is said that John Sherman has reentered the race for the presidency in order to save the country from financial lunacy. The old man has tried to save the country on three occasions already, but with singular indifference to its peril the country has each time played Emin to his Stanley.—St. Louis Post-Dispatch.

The senatorial contest is hot. Sherman's friends are alarmed, and Foraker's supporters are arrogant. It will wax warm, and it is generally conceded that the longest purse will sweep the platter. It is Alger, Bushnell and a Blaine sentiment on the Foraker side, and Sherman and Wall street influence on the other.—Delaware Herald.

CHINA'S RETALIATION.

The emperor of China may not be at the head of the diplomatic class, but he knows how to resent bad treatment.—Washington Post.

It may be a little hard on the world's fair, but we can not help admiring the spunk of China in refusing to participate in the exposition on account of our anti-Chinese laws. Indianapolis Sentinel.

This is proper self-respect, and we can not blame her. It only shows that if we wish to do without the Chinese we will not be permitted to make a half-way job of it, and use them when it happens to be to our advantage.—Indianapolis News.

This action is taken upon the plea that as the United States has discriminated against Chinese citizens in its immigration laws it would be unbecoming in the government of the Flowery kingdom to manifest any especial friendliness to this nation. It must be admitted that the position of the Chinese government is well taken.—Chicago Times.

SPRINGER'S POLICY.

Mr. Springer's views on the tariff policy to be pursued in congress are sound. He advocates an effort to put certain necessities on the free list and opposes the introduction of a general bill which could not pass, but would furnish ammunition to the enemy.—Birmingham Age-Herald.

Mr. Springer's proposed program for this congress has, it seems to the Ledger, a large element of fair play, good sense and statesmanlike thought and sagacity about it. Coming from him, under existing circumstances, it is entitled to the best consideration of the public.—Philadelphia Ledger.

Mr. Springer has the right idea of handling the tariff this winter. No general law can be passed anyway, and so the democrats should endeavor to get relief along the lines where the sharpest necessity exists. Give the common people free salt, free lumber, free fence wire, free binding twine, free cotton ties and free wool.—Sioux City Tribune.

CENTRAL LABOR UNION

Elects Officers and Has an Otherwise Interesting Meeting.

At the meeting of the Central Labor union last evening the following officers were elected for the ensuing year: Robert F. Booth, president; William Fellows, vice president; Reynold Voit, treasurer; A. J. Smith, recording secretary; Fred J. Carr, corresponding secretary; Thomas E. Rooney, financial secretary; John F. Gerrity, guard; A. A. Reilly, A. G. Otto, Percy Byron, trustees.

The following is a list of new delegates admitted:

Superintendent Compton addressed the meeting in the interest of university extension at considerable length. At the conclusion of his address the following was unanimously adopted:

"Resolved, That the Central Labor union hereby indorse the university extension movement, and promise our aid in making it a success."

Resolutions of thanks were tendered J. N. Mockett and J. L. & J. B. Hudson for their prompt refusal to buy any more of the boycotted Rochester clothing.

The matter of the printing of the city directory came up and the adoption of the following resolution was the result:

"Resolved, That the Central Labor union advise all workingmen to give fictitious names to the compilers of the next city directory in case the book is published in a "scab" house.

Mayor Emmick's course in vetoing the street railroad ordinance was denounced and the following resolution adopted:

Whereas, The board of aldermen and board of councilmen of Toledo, having prepared and adopted by overwhelming majorities an ordinance governing the conduct of street railroads in the city, and

Whereas, The ordinance referred to contained two amendments of especial importance to the working people, namely, those referring to the employment of conductors and usage of gates, which were deemed just and necessary by the general public, and

Whereas, His honor, Mayor Emmick, after having received the ordinance for approval or rejection, did veto the two amendments referred to above; therefore, be it

Resolved, That in the veto of the measure referred to the mayor has, in the estimation of the Central Labor union, pursued a course that we deem not only arbitrary and tyrannical, but unjust and uncalled for: and further be it

Resolved, That we call upon and request the boards of aldermen and councilmen to pass the said amendments over the veto of his honor, Mayor Emmick.

Delegates to the trades assembly at Columbus next month were instructed not to take any part in the Sherman-Foraker fight.

On motion $10 was appropriated to the striking printers of Pittsburg, and the secretary instructed to send the sympathy of the Central Labor union to the Pittsburg brethren.

THAT PENNSYLVANIA DEAL

Causes Considerable Favorable Comment.

The deal whereby the Pennsylvania Railroad company secure valuable property in Toledo, the particulars of which were published in the Bee yesterday, has caused considerable comment in railroad and real estate circles.

The sale of the Clark tract has not yet been closed, but Mr. Clark said this morning it was tending that way.

The possession of half a mile of the river front will be a valuable acquisition to the Pennsylvania company, as its docks on this side are not nearly adequate for the amount of coal and iron ore that is now being handled.

"It is an excellent move," said Mr. G. G. Hadley this morning. "It will help immensely in making room for the iron ore business and will tend not a little in making Toledo a great iron ore distributing point."

CONGRESS TO JUNKET.

Chicago Will Entertain Both Branches, If Necessary.

Washington, Dec. 18.—Congress is to be invited to make a flying trip to Chicago to see for itself the work of preparation that has been done on the world's Columbian exposition.

Director Edward F. Lawrence of Chicago and Secretary Dickinson of the national commission, a committee appointed by citizens of Chicago for the purpose, arrived last night and held a conference with the Illinois delegation with that end in view.

DESTROYED BY FIRE.

Kennedy, N. Y., Dec. 18.—Fire about midnight destroyed the stores of C. A. Boyle and B. L. Grover and a barn in the rear of the latter.

It was feared for a time that the entire village would be burned, but hard work by a bucket brigade prevented the further spreading of the flames. The loss is about $6,000, partially insured.

NEW PARNELL ORGAN.

Dublin, Dec. 18.—The first issue of the Irish Independent, the new organ of the Parnellites party, appeared to-day and found a rapid sale.

Among other things it contains an interview with Mrs. Delia Stewart Parnell, mother of the late Charles Stewart Parnell.

THE SLANDER SUIT.

London, Dec. 18.—In the action for slander brought by Mrs. Osborne against Mrs. Hargreaves, now before Justice Denman and a special jury in the Queen's Bench division of the high court of justice, the case for the plaintiff was closed this morning.

ANTI-PROTECTION.

Brussels, Dec. 18.—The Independance Belge states that Sweden and Norway are preparing to enter the German anti-protectionist league.

BRIGHT AND BRIEF.

Heat is born of light. Even in the game of poker it is the raise that makes things warm.—Binghamton Leader.

There is no particular harm in riding a hobby, if you do not take up the whole road with it.—Texas Siftings.

Don't get angry at trifles. Look at vexations now, as you will view them thirty days from date.—Solomon's Seal.

Don't pray too long in church on a cold day if your horse is standing outside in the storm without a blanket.—Ram's Horn.

"Oh, mamma!" cried Willie, on seeing a zebra for the first time, "do come here, and see this poor little convict pony."—Harper's Young People.

"Who wrote the Psalms?" asked the superintendent, severely. And then a little girl in the infant class began to cry. "It wasn't me, sir," she said.—Tid-Bits.

THE RIOT ALARM AGAIN.

Great Excitement on the Streets of Cincinnati.

A Mad Rush to Pay Taxes Causes Trouble.

Citizens Rebelled Against Being Forced Into Paying a Penalty and for a Time the Scene Looked Threatening.

Cincinnati, Dec. 18.—There came near being a re-enactment of the bloody court house riot of 1884 here this morning. A great mob of tax payers and others crushed into the county treasurer's office to pay their taxes and avoid the penalty.

The bills were delayed until yesterday and it was impossible to take in all the money presented.

One man put a revolver under the nose of the receiving clerk and said he would shoot if the money was not accepted and receipted for at once.

The great crowd on the outside grew riotous and hurled stones through the window.

One man was knocked insensible and two women were crushed almost to death.

A riot alarm was sounded and a large body of police arrived and by vigorous action cleared the streets and drove off the more belligerent rioters. There is great excitement over the affair.

MADE SHORT WORK OF IT.

Thirty Masked Men Capture a Prisoner and Lynch Him.

Jacksonville, Fla., Dec. 18.—Last night thirty masked men alighted from a train at Live Oak, ran over to the residence of Sheriff Potsdamer, covered him with rifles and compelled him to surrender the keys to the jail.

They then took out two negroes charged with murdering B. D. Paranoure, of Valdosta, Ga., at New Bronford, Fla., hanged them to a tree and riddled their bodies with bullets.

MANY POOR

Receiving Help From the Infirmary Department.

Some Pitiful Cases Acted Upon To-Day—Considerable Sickness—Shanty Boat Residents Along the River.

The infirmary department is having all the business it can attend to just now, and the directors are overrun with appeals for help. These are all investigated, and those deserving of help are assisted, but many imposters are found, and these are the cases that cause the department the most trouble. There is also much sickness prevailing.

"I would like to have the people warned," said Director Herman Baumbach, "against women who are begging from door to door. There are a number of women doing this who are not in need and do not deserve sympathy. When a beggar goes to a house with a pitiful tale he should be sent to this office."

This morning the authorities sent to Cleveland a middle aged man named Stine, who had been a German soldier and seemed to be a gentleman of refinement. He has been ill for a long time, and at present is in a very serious condition.

John Fritz, the young lad arrested the other day for jumping on cars, was started on his way to Chicago, where he said his mother lived.

John Naftz, an old soldier who has been living on a raft off the foot of Ash street, where he was found in a sick and destitute condition, will be sent to the Soldier's Home at Sandusky to-day.

Another case of exceeding destitution was yesterday investigated by Mr. Baumbach. In a little one-room shanty, that was formery an old boat house and is now lodged on the embankment of the Pennsylvania railroad bridge, lives an old woman called Mother Irwin and an old man named Wilson. The man was formerly a sailor, but now he is almost at the point of death with typhiod fever. The shanty is a long distance from the street, and the only access to it is along the Pennsylvania railroad track. It is almost in the river, and is a terrible place for human beings to live. The man is too ill to be removed, and will probably die there.

It is figured that 37,000,000 babies are born each year in the world. This means about 70 each minute. A line of cradles containing them would stretch around the world.

THE JOURNALS OF CANADA.

The generality of Canadian newspapers in their style, says Walter Blackburn Harte, a Canadian journalist, in the New England Magazine for December, are a curious mixture of English and American methods. In the news department they are very similar to the newspapers in the smaller American cities, and in the editorial columns they are modelled after the English provincial papers. Except in one or two instances, they are destitute of all pretensions to literary excellence. The Toronto Mail and Globe maintain a higher standard than any of their contemporaries. The Gazette of Montreal and the Empire of Toronto are almost exclusively political in their scope, and exist as the organs of the conservative party. The western papers have little room for anything outside of news and politics. The Montreal Star is always on the popular side of every question. The Ottawa papers, like those of Washington, carry little weight and are miserable in every particular. The French Canadian newspapers are less enterprising and energetic in the gathering of news than the English, but their editorial columns are usually more striking in a literary way.

CHEATING IN HORSE BLANKETS
Nearly every pattern of 5/A Horse Blanket is imitated in color and style. In most cases the imitation looks just as good as the genuine, but it hasn't the warp threads, and so lacks strength, and while it sells for only a little less than the genuine it isn't worth one-half as much. The fact that 5/A Horse Blankets are copied is strong evidence that they are THE STANDARD, and every buyer should see that the 5/A trade mark is sewed on the inside of the Blanket.

A TOWER OF STRENGTH.

Build thy soul a tower,
Post a guard around;
Honor, Love, Truth, Power,
Let them keep the ground.
Bar the gates and portals fast,
Let no thought unchallenged past.

Question each with care
What the watchword be;
See that all shall bear
"Faith and Purity."
If Regret the watch tower keep,
Take good care he must not sleep.

Though lodged safe within
Walls upreared by prayer,
Let no hosts of Sin
Rest securely where
Thou canst reach and battle wage;
Each invading foe engage.

If no traitor stay
Housed within thy gates,
Thou shalt win the day—
Vict'ry on thee waits;
Sin can never battle do
With the soul whose guards are true.

Aye, a builder be
Till thy tower shall stand
Like a verdant tree
In a desert land,
Sheltering from storm and heat,
Refuge for the pilgrim's feet.

When a wife is expected to be pretty much every thing it is refreshing to hear of a prospective husband who does not intend to require much of her. A Wyoming rancher is very anxious for a wife. He says in his advertisement that he is not particular about her looks, her age or her fortune, and she need not be a good cook, as he is something of an artist in that line himself.

The father of his country was a patriot and gave his services freely without recompense, but it must not be forgotten that he was a thrifty man. Some one who has been looking into his finances says: George Washington was one of the richest men of his time in America. He attached to his will bearing date of July 9, 1799, a schedule of his property and placed the total valuation of the same at $530,000. His estate was undoubtedly worth more, and all of $600,000, and even more. The estimate of $530,000 was considered by Washington himself a very low one, for in the notes which accompanied the will and schedule he frequently refers to the "moderate value" and "lowest price affixed" of the various pieces of property. The Ohio lands included in the estate increased immensely in value.

DOWN AN EMBANKMENT,

Bad Wreck on the Southern Kansas Road.

Twenty-Six Persons Injured, Many of Whom May Die From Effect of Their Bruises.

Cherryvale, Kan., Dec. 18.—The southbound passenger on the Southern Kansas, due here at 4:10 o'clock, was wrecked two miles north of this city, caused by defective ties.

The express car, two regular coaches and the sleeper were all hurled down a high embankment with about forty passengers on board.

Twenty-six passengers were more or less injured, three of whom may die. Those seriously injured are: Conductor Eli Parsons, Mrs. Lizzie McGuire, of Sharon, Kan., and a little colored boy, name unknown. Fire broke out, and all the cars ditched were entirely consumed. The engine and baggage and mail cars did not leave the track.

Among the seriously injured are:

Mayor C. C. Kincaid, Cherryvale, sprained back and severe bruises on head. O. F. Carson, Cherryvale, injured back and shoulder; Mrs. A. P. Wall, Grenola, Kan., severe spinal injuries and cut on head; Mrs. M. R. Spires, Franklin, Ill., head and back injured; Mrs. Lulu Brooks, Oklahoma City, shoulder fractured and head cut; her little daughter injured internally; James Ostrander, Wellington, collar bone broken; T. L. Larnes, Lawrence, badly burned face and internal injuries; J. Gibson, Severy, Kan., injured back and head; Moses Thompson, Spirit Lake, Ia., head, neck and shoulder hurt; T. P. Johnston, Houstonia, Mo., slight bruises about head; C. E. Stewart, Shenandoah, Ia., head, neck and shoulder injured; D. B. Fuller, Eureka, Kan., slight internal injuries; Dr. G. W. Crees, Galesburg, Kan., badly burned hand and cut on head; E. W. Speilman, Topeka, back and head bruised; John H. Brown, Kansas City, Kan., cut on head and shoulder; Lulu Bailey, Ada Bailey and Miss Talmadge, en route from Memphis to Guthrie, Okla., all more or less injured; P. I. Brown, Grenola, Kan., badly bruised and leg fractured.

The passengers who were able went bravely to work to save the seriously injured ones, and all were rescued before the fire had consumed the coaches, although quite a number of unfortunates received severe burns. The passengers were brought to this city and taken to the Sherman house, where medical aid was summoned to alleviate the sufferings of the injured ones.

WHAT THEY ARE GOOD FOR.

Brandreth's Pills are the best medicine known.

First—They are purely vegetable, in fact a medicated food.

Second—The same dose always produces the same effect—other purgatives require increased doses and finally cease acting.

Third—They purify the blood.

Fourth—They invigorate the digestion and cleanse the stomach and bowels.

Fifth—They stimulate the liver and carry off vitiated bile and other depraved secretions.

The first two or three doses tell the story. The skin becomes clear, the eye bright, the mind active, digestion is restored, costiveness cured, the animal vigor is recruited and all decay arrested.

Brandreth's Pills are sold in every drug and medicine store, either plain or sugar coated.

REST.

(The following lines were found under the pillow of an American soldier, who was lying dead in a hospital near Port Royal, S. C.)

I lay me down to sleep,
With little thought or care,
Whether my waking find
Me here or there.

A bowing burdened head,
That only asks to rest
Unquestioningly upon
A loving breast.

My good right hand forgets
Its cunning now—
To march as many march
I know not how.

I am not eager, bold,
Nor strong—all that is past;
I am ready not to do
At last, at last.

My half day's work is done,
And this is all my part;
I give a patient God
My patient heart.

And grasp His banner still,
Though its hue be dim;
These stars no less than stripes
Lead after Him.

GAS BOARD MEETING.

The Paying of Employes Is Again Postponed—Routine Business.

Messrs. Backus and Brown were absent from the meeting of the board of natural gas trustees last evening, but their presence was not much of a necessity, as there was no important business before the board.

Dr. Jones, from the committee on claims, reported claims amounting to $208, money reimbursed to parties advancing same on line not completed.

Mrs. Creighton, janitress of the Erie street school, presented a bill for $20, expenses incurred by her by escape of gas which tarnished and soiled the woodwork of the building. Superintendent Compton recommended that the bill be paid and the recommendation was indorsed by the committee on claims. Allowed.

On the recommendation of the same committee, $1,140 was ordered paid to two well drillers and the same was charged to Contractor John McIntyre.

The semi-monthly payroll, $3,170, was presented, and a motion to pay it was voted down.

Secretary Brown wanted to know what say to the men.

Mr. Greene said he had examined the schedule and wanted further time to investigate before voting.

John McIntyre presented a bill of $3,476 for three gas wells drilled in. The amount was ordered credited to Mr. McIntyre's account.

The final estimate on work done by Graff Acklin, amounting to $1,623, was presented, and it was ordered that certificates for the balance due him be issued to that amount, and his accounts squared.

The bill of Parks, Foster & Co., for connections made, amounting to $1,190, was presented.

Mr. Greene said he desired to look into the claim before voting for it. It was referred back.

Some more routine business was transacted and the board adjourned.

BLOCKS OF FIVE ENDORSED

By Wood's Appointment to the Bench.

Harrison's Latest Batch of Office Holders Furnishes Much Comment of Interest.

Washington, Dec. 18.—(Special)—Naturally comment has turned upon the appointment of Judge Woods, of Indianapolis, by whose nomination Indiana is given another republican judge.

The part taken by Judge Woods in the politics of Indiana has not commended him to the respect of either party, but the president has not permitted this fact to influence him.

It was Judge Woods, now a United States District Judge, who dismissed the suit against Dudley, when the latter had been indicted for attempting to bribe Indiana voters by the "Blocks-of-Five" scheme.

The democrats in the senate, under the leadership of Senator Voorhees, will oppose Woods's cofirmation, but it is doubtful if they will be able to prevent it.

The surprise of the list was the nomination of George M. Dallas, of Philadelphia. There was no intimation given to any one that his name was under consideration. The Pennsylvania senators are greatly chagrined, and the republican members of congress from Pennsylvania are in little better humor.

There were in Pennsylvania three prominent republican candidates for the position—Judge Hollingsworth, of Philadelphia; ex-Congressman Osborne, of Wilkesbarre, and Judge Kirkpatrick, of Pittsburg. All were strongly indorsed, and their friends say that the president should have given them an opportunity to withdraw their names if he intended to appoint a democrat.

Senator Hoggins, of Delaware, had indorsed Mr. Spruance, of that state, and Judge Greene, of New Jersey, had also been recommended to the president. There is talk among the New Jersey and Pennsylvania republicans of asking the president to reconsider this appointment.

It is said that Mr. Dallas is connected by marriage with the family of the president, which may offer a sufficient explanation of his nomination.

DOWN WITH THE GRIP.

Washington, Dec. 18.—Assistant Treasurer Whelpley and Adjutant-General Kelton are sick with the grip.

WAKE UP.
If you wake up in the morning with a bitter or bad taste in your mouth, Languor, Dull Headache, Despondency, Constipation, take Simmons Liver Regulator. It corrects the bilious stomach, sweetens the breath and cleanses the furred tongue. Children as well as adults sometimes eat something that does not digest well, producing Sour Stomach, Heartburn, Restlessness, or Sleeplessness—a good dose of Regulator will give relief. So perfectly harmless is this remedy that it can be taken by the youngest infant or the most delicate person without injury, no matter what the condition of the system may be. It can do no harm if it does no good, but its reputation for 40 years proves it never fails in doing good.

LA GRIPPE RAGING AGAIN.

Advice and Warning Given in a Public Lecture by Dr. Hartman at the Surgical Hotel, Columbus, O.

Reported for the Press.

The symptoms of la grippe, which are slightly different in each case, are: First, a "tired out" feeling, general lassitute, cold feet and hands; second, aching of the bones, transient fleeting pains throughout the whole body; third, chilly sensations, from indistinct, creeping rigors in slight cases, to pronounced chills in more severe ones; fourth, fever, with temperature ranging from 102 to 104 degrees Fahrenheit; fifth, congestion of the eyes, lining membrane of the nose—sometimes throat and bronchial tubes; sixth, profuse sweating occurs in some cases, especially after the disease has run a few days; seventh, sneezing, and less frequently coughing, are among the earliest symptoms; eighth, usually an intense frontal headache, which continues more or less during the whole course of the disease; ninth, aching and soreness of the muscles of the whole body.

No other medicinal treatment is necessary than Pe-ru-na. The directions, as they are given on the bottle, are more applicable to chronic diseases, and it is advisable, during the acute stage of the disease, to take smaller doses, but oftener. I would direct a teaspoonful of Pe-ru-na every hour for adults, and a correspondingly less dose for children. During the night, if the patients are restless, Pe-ru-na should be given regularly the whole 24 hours. The recovery is generally slow, even in slight cases. For many days the patient will complain of weakness, slight headache, want of appetite, etc. Pe-ru-na should be taken until the recovery is complete, but after the fever has subsided and the acute stage is past it is better to take the Pe-ru-na according to the directions on the bottle, viz.: a tablespoonful before each meal. Beef tea, mutton broth and milk should be freely given according to the preference of the patient.

People who have had la grippe, the acute stage having passed and their recovery has come to a standstill, as is frequently the case, will find in Pe-ru-na exactly the remedy that is suited to their case. It invigorates the whole system, restores the appetite, and produces natural sleep. Even after pneumonia or consumption has begun to develop it is not too late to expect a perfect cure from Pe-ru-na without any other treatment whatever.

Send to The Peruna Drug Manufacturing company of Columbus, Ohio, for a free pamphlet on the treatment of la grippe, catarrh, coughs, colds, consumption, and all the climatic diseases of winter.

DR. BIGELOW.
The Oriental takes the plum
And knocks all other dentists dumb;
But talk they must, and so they say
The boss is nothing but a jay,
And all his men are great big fools—
Simply dupes and pigeon stools.

Oh, how they fume and beat the air
When told that Oriental men are
Graduates of dental schools
Who never turn out dupes or fools.
Neither do they puff and blow
Or otherwise ill-manners show.
They do their work with greatest skill,
And never use their patients ill.

MISS CRISSEY, SEC.
But while the dentist shows he's sore,
And plies his patient with dental lore,
In his vain attempt to make him think
His skill and knowledge is worth more
Than any of the total score,
And says they come from far and near,
The patient has some feelings queer
About the man of self-renown
Who is so full of dental lore
As to make himself a regular bore
And swears he'll never go there more.

DR. REES.
And so he goes to Bigelow
To see if what he says is so.
And when he finds the doctor kind,
With nothing rankling in his mind,
But ready at his first request
To use his skill and do his best
To give relief to boy and man
Without a boast of can't or can,
He says that Bigelow's the man
To catch the trade throughout the land,
Because he does not make one sore
By chaffing him with dental lore.

DR. ESTELL.
And best of all, disgusted men
Who have been bored by dentists sore
Over fame obtained by skill and cares,
Combined with prices very low,
Will bless the name of Bigelow,
And day and night they'll sound his praise
And tell their friends the proper place
To get repairs upon their teeth
Is where they do not puff and blow,
But do good work like Bigelow.

DR. DEYOE.
The doctor has great opposition
Because of his advanced position;
But why should dentists show their spleen
By saying things that's really mean.
Why can't they see that they can rise
If they like he will advertise,
And tell the people where they are
And prove their prices right and fair.
There is no use that men should sulk
If some one else does get the bulk.
There is no law to keep them down
If they will hustle for renown.

MRS. ERNST, LINGUIST.
Now, to conclude my inspiration,
I have one thing I wish to mention,
That Dr. B. is up in G,
Because all papers with the Bee
Have told the truth and nothing more;
So if you've pain from teeth that's sore
Go where so many have before,
And know you'll still be left alive.
Ask for the number three, aught, five,
Or ask the first you chance to meet,
Where Bigelow is on Summit street,
And you'll not have to ask them twice
To get the number and advice.
You'll hear them say, "It's plain to see
That Dr. B. is up in G."

DON'T FORGET.
That Dr. Bigelow's Oriental Dental Parlors are open all night. If your teeth ache don't hunt up some sleeping dentist, but go at once to 305 Summit street and you will find everything as warm and pleasant as in the day time, and just as good a dentist to wait on you. Extracting teeth is still half price on Mondays, Wednesdays and Fridays, the pain annihilator still has power to draw the crowds. Come early. Remember the number, 305 Summit street, Toledo, O. Phone 1234.

CONTRACTOR FIGHT

Causes Opposition to the Front Street Pavement,

Yet the Work Was Good and Was Accepted on Its Merits—Sidewalks and Sewers.

The amount of business before the council committee last evening was not large, but a number of points were raised that brought considerable discussion.

A petition was presented asking the city to condemn and open part of the alley between Monroe and Washington streets from Huron to Superior. The property owners agree to pay all the expense and the matter was referred to the engineer to prepare the proper resolution.

A resolution to accept the cedar block pavement on Front street from Bridge street to the Port Clinton turnpike was contested by Mr. Coleman, who said that hemlock had been used for flooring under the blocks and he did not consider that in accordance with the specifications which called for pine.

Mr. Macomber stated that he considered the pavement all right, the people are satisfied with it and hemlock lumber used under the blocks is far superior to most of the pine that has been used on other streets. Mr. Macomber insisted that hemlock is a species of pine. He also paid the contractors, Dewey & Widner a high compliment for their work, and also for Lagrange street, which was put down by the same firm. In Detroit and Chicago, he said, nothing but hemlock is used for this purpose, and it is considered much better than pine.

In answer to questions the solicitor stated that the assessments would be good if the work was accepted by the engineer and the street committee.

Mr. Coleman still opposed it, saying that the contractor put in hemlock because it was cheaper than pine.

Mr. Hassenzahl said that all the property owners along the street were well satisfied and especially mentioned Mr. H. P. Platt, the largest property owner on the street. He had watched the work closely, and was satisfied that it is a good job.

City Engineer Wickenden stated that the hemlock flooring put under this pavement was far superior to the average pine that has been used in this city.

Mr. T. S. Dewey, one of the contractors, was heard. He stated that hemlock is a species of pine and this filled the specifications. Furthermore, he stated that he paid for his hemlock $2 and $2.56 more per thousand than the price paid for pine on certain other streets. He also presented letters from the board of public works at Bay City and a Chicago contractor, both of which recommended hemlock for pavement flooring.

Col. Isaac D. Smead, who happened to be present, made a statement that in his new foundry he had used a hemlock flooring instead of pine and considered it superior. He also said that in an old building of the Milburn wagon works which was torn down some time since, the hemlock flooring has far outlasted the pine.

Mr. Macomber mentioned the fact that on Lagrange street Dewey & Widner had put down the pavement for $15,000 less than the next lowest bidder, and he had also put the Front street pavement down for much less. This and the fact that he is putting down a superior kind of pavement has roused the other contractors against him and caused this opposition.

There was some further discussion, but on motion of Mr. Hassenzahl the work was accepted.

A resolution was approved to grade Yondota street from First street to the Lake Shore tracks.

The contract for paving with Medina block stone the alley between Summit and St. Clair streets, from Adams to Oak, was awarded to G. H. Bodette for $2,601.23.

A resolution was approved to pave with old Medina stone the alley between Huron and Erie streets, from Monroe to Jefferson streets.

A resolution to widen and open Islington street from Cherry to Fulton met with some opposition. This street between the points named is but 30 feet wide and the petition is to condemn the adjoining 30 feet and make a 60 foot street. This property is owned by George Bayer and he was represented before the committee by Attorney Kinney, who opposed the opening. Mr. T. H. Tracy represented the property asking for the improvement. After much discussion the resolution was lost by a tie vote and was then laid on the table.

An ordinance to establish the grade of Columbia street was approved.

The plat committee approved plats of Miles' addition and part of Western avenue addition.

A number of resolutions for new sidewalks were approved by the sidewalk committee.

A contractor was before them and made complaint of a sidewalk for which he had the contract, yet the property owner let the work to some one else. He did not get much satisfaction, however, even after much talk.

* * *

The sewer committee let the contract for sewer 398 in Monroe street, from Detroit avenue to the city line, to F. E. Cole for $2,743.53.

Cole was also awarded the contract for sewer 399 in Bancroft street, from Detroit avenue to the city line, for $2,301.32.

CHOYNSKI WON THE FIGHT.

Billy Woods, of Denver, Defeated in Thirty-four Rounds.

San Francisco, Dec. 18.—One of the most important fistic events that has taken place on the Pacific coast this year was the contest between "Billy" Woods, of Denver, and "Joe" Choynski, of San Francisco, at the Pacific club, for a purse of $4,000, last night. Despite his unbroken record of victories, Woods was at the short end of the betting, the odds being 100 to 65 on Choynski.

Woods had the advantage in weight, height and reach. He weighed 181 pounds to Choynski's 172. Both men were apparently in the best of condition.

Woods' seconds were Martin Murphy and Patsy Hogan. Choynski had Fitzpatrick and Eddie Green. Mike Sullivan was the referee. Time was called at 9:10 o'clock.

Choynski won in the thirty-fourth round.

MRS. PAXSON, MAYOR.

She Has Proved the Friend of Liquor Sellers.

No Cases Can Be Made Against the Dens of Infamy While She Remains in the Mayor's Chair.

Topeka, Kas., Dec. 18.—The correspondence between the state officials and the county officials of Barber county in regard to the charges made by Mrs. Paxson, Mayor of Kiowa, is daily becoming more interesting.

This morning Attorney-General Ives received a communication from L. W. Degeer, of Medicine Lodge, county attorney, in which he says that Mrs. Paxson has frequently been brought before him, and that she knows nothing upon which a prosecution for liquor-selling can be based.

He refers to her as "I, Mayor of Kiowa," and says she is both cranky and unreliable, and is simply striving for cheap notoriety.

Mr. Degeer says it is impossible to have the court's orders served, and makes the remarkable statement that "nine out of every ten men in Kiowa would rather lie than convict a liquor seller. Five men have been arrested within the past two months, but no one has been convicted."

He says the only injunction proceedings possible would be to enjoin every house in town, as the joinists change their place of business so often that it is impossible to keep track of them. Degeer says he has to bring his prosecutions in the justices' courts outside of Kiowa township.

WAR THE NATURAL RESULT.

The Pamir Incident Was a Serious Affair.

The People Have Been Preparing for Just Such An Outbreak for Two Years.

London, Dec. 18.—Semi-official admissions are made that the recent encounter between the British force at Gilgit and hostile tribesmen, supposed to be acting in the Russian interest, was not an accidental collision.

The time had arrived for open action, which had been led up to by diplomatic and military preparations which have been going on for at least two years, with this eventuality constantly in view.

The King of Hunza murdered his father in order to mount the throne, and the King of Nogar procured the waylaying and removal of his brother in order to seize the reins of government.

No one need waste any sympathy upon the natives, who now stand ready to be crushed between the forces of England and Russia. The final struggle which is to decide the future mastery of the region is probably not far distant.

Russia denies the right of England to any influence, much less any actual military possession, beyond Cashmere, while Lord Salisbury encourages to supremacy in that region.

All gone—woman's suffering and woman's weakness. Dr. Pierce's Favorite Prescription puts a stop to it. It's a remedy for all the delicate derangements and disorders that make her suffer, and a cure for all the diseases and disturbances that make her weak. It's a legitimate medicine, that corrects and cures; a tonic that invigorates and builds up; a nervine that soothes and strengthens. For bearing-down pains, displacements, and all the functional irregularities peculiar to the sex, it's a safe and certain remedy.

Other medicines claim to cure?

That's true. But they don't claim to do this: if the "Favorite Prescription" fails to benefit or cure, in any case for which it's recommended, the money paid for it is refunded.

Judge for yourself which is likely to be the better medicine.

And think whether something else offered by the dealer is likely to be "just as good."

You pay only for the good you get. On these terms it's the *cheapest*.

FRANCE MEDICAL AND SURGICAL INSTITUTE,
38 & 40 W. Gay St., one block N. of State House, Columbus, O. Incorporated, 1886. Capital, $300,000.

DRS. FRANCE AND OTTMAN, of New York, the well known and successful Specialists in Chronic Diseases and Diseases of the Eye and Ear, on account of their large practice in Ohio, have established the FRANCE MEDICAL INSTITUTE, where all forms of Chronic, Nervous and Private Diseases will be successfully treated on the most Scientific principles. They are ably assisted by a full corps of eminent Physicians and Surgeons, each one being a well known specialist in his profession

CANCER positively cured without pain or use of the knife, by a new method.

IMPORTANT TO LADIES.—DR. FRANCE, after years of experience, has discovered the greatest cure known for all diseases peculiar to the sex. Female diseases positively cured by the new remedy, OLIVE BLOSSOM. The cure is effected by home treatment. Entirely harmless and easily applied. Consultation Free and Strictly Confidential. Correspondence promptly answered.

YOUNG MEN—Who have become victims of solitary vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of exalted talent and brilliant intellect, may call with confidence.

DRS. FRANCE AND OTTMAN, after years of experience, have discovered the greatest cure known for weakness in the back and limbs, involuntary discharges, impotency, general debility, nervousness, languor, confusion of ideas, palpitation of the heart, timidity, trembling, dimness of sight, or giddiness, diseases of the head, throat, nose, or skin, affections of the liver, lungs, stomach, or bowels—those terrible disorders arising from the solitary vice of youth—and secret practices, blighting their most radiant hopes or anticipations, rendering marriage impossible. Take one candid thought before it is too late. A week or month may place your case beyond the reach of hope. Our method of treatment will speedily and permanently cure the most obstinate case, and absolutely restore perfect manhood.

TO MIDDLE-AGED MEN.—There are many from the age of 30 to 60 who are troubled with frequent evacuations of the bladder, often accompanied by a slight burning or smarting sensation, weakening the system in a manner the patient cannot account for. On examination of the urinary deposits, a ropy sediment will be found, or the color will be a thin or milkish hue. There are many men who die of this difficulty, ignorant of the cause, which is a second stage of seminal weakness. We will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

DISEASES OF WOMEN.—We have a special department, thoroughly organized, and devoted exclusively to the treatment of diseases of women. Every case consulting our specialists, whether by letter or in person, is given the most careful and considerate attention. Important cases (and we get few which have not baffled the skill of all the home physicians) have the benefit of a full council of skilled specialists. In treatment of diseases peculiar to females, our success has been marked, over two-thirds of our patients being ladies, old, young, married, single, rich and poor. Our method is entirely free from objectionable features of the general practitioner, namely, "Local treatment." We seldom find it necessary. We prepare remedies, constitutional and local, as the case demands, and instruct ladies how to treat themselves.

MARRIAGE.—Married persons, or young men contemplating marriage, aware of physical weakness, loss of procreative powers, impotency, or any other disqualification, speedily restored.

PRIVATE DISEASES.—Blood Poison, Venereal Taint, Gleet, Stricture, Seminal Emissions, Loss of Sexual Power, Weakness of Sexual Organs, Want of Desire in Male or Female, whether from imprudent habits of youth or sexual habits of mature years, or any cause that debilitates the sexual functions, speedily and permanently cured. Consultation free and strictly confidential. Absolute cures guaranteed. Medicines sent free from observation to all parts of the United States.

EPILEPSY, OR FITS—Positively cured by a new and never-failing method. Testimonials furnished.

FREE EXAMINATION OF THE URINE.—Each person applying for medical treatment should send or bring from 2 to 4 ounces of urine (that passed first in the morning preferred), which will receive a careful chemical and microscopical examination, and if requested a written analysis will be given.

Persons ruined in health by unlearned pretenders, who keep trifling with them month after month, giving poisonous and injurious compounds, should apply immediately. Delays are dangerous.

WONDERFUL CURES Perfected in old cases which have been neglected or unskillfully treated. No experiments or failures. Parties treated by mail or express, but where possible, personal consultation is preferred. Curable cases guaranteed. No risks incurred.

Cases and correspondence confidential. Treatment sent C. O. D. to any part of U. S. List of 130 questions free. Address, with postage, DR. FRANCE, Nos. 38 and 40 W. Gay St., Columbus, O.

Wheat Quotations for the Day—Price Current for Produce and Other Articles

Russia's Grain Market.

According to mail advices from Odessa of the 17th ult., the weather has become mild again, and was favorable to the winter sown grain fields. In the grain market much quietness and inactivity has been observed, there being but little business transacted and confined to parcels of barley for the interior. The military department has also been buying up several lots of wheat and rye. The quary are said to be rather encumbered with grain which is destined for the relief of the famine stricken localities. Good conditioned lots of corn are being purchased for Montenegro. Last week 153 carloads of grain arrived by rail, which were dispatched before the promulgation of the wheat export interdict, but since then supplies have ceased. The stock on spot amounts to about 495,000 qrs.—Dornbusch, Dec. 3.

Crops in Russia.

Odessa, Nov. 30.—The usually mild weather that we have been having during the past three weeks has done much to improve the condition of the autumn sowings, which had been either drouthed or cut down by the early frosts. The weather still keeps mild and rainy, but of course it may now change any moment. No fresh steamers are arriving or expected to arrive in our port, so that when the half dozen steamers now discharging and loading are finished there will be only the Australian, Italian, or one or two other liners paying occasional visits to the port.—Liverpool Corn Trade News.

A QUEER SUPERSTITION.

After lying in jail for six months, M. F. Kerr was brought to trial to-day and was acquitted on the charge of forgery, writes a Crawfordsville (Ind.) correspondent. Last spring a Virginia estate in which Kerr had an interest was settled, and a check for several hundred dollars, in partial payment, was sent to his divorced wife, Mary L. Kerr, who also had an interest in the estate. It was addressed to M. L. Kerr, but the divorced husband got it, and in his ignorance cashed it by indorsing the name on the face, though his initials were M. F. The jury chose to look at the intent rather than the act itself and rendered a verdict accordingly.

Toward the close of the trial an incident occurred which, while amusing, demonstrates that the average American still believes in the efficacy of signs. During a lull in the proceedings a strange black cat, with fierce, glaring eyes, appeared in the doorway, causing a solemn silence to fall over the assembly. It paused, looked about, and, slowly swishing its tail to and fro, advanced toward the space between the prisoner's and the jurors' box. The silence became oppressive, and the judge, lawyers, jurors, and prisoner craned their necks, and, with open mouths, gazed at the creature.

"Would the apparition approach the prisoner to be touched?" If so the man was innocent and would be freed.

After standing as if transfixed for a few seconds it approached the prisoner, who with a superhuman effort, rallied, stretched forth his hand, and touched the glossy fur. Immediately the cat gave a joyous meow and disappeared. All were convinced that Kerr would go free, although clearly guilty of forgery, and bets to this effect found no takers.

BALDHEADED BEAUTIES.

The New York Evening World declares that there are thousands of baldheaded women running around New York city in wigs, toques and veils. These bareheaded beauties vary from 17 to 70 years of age. Some of them have been ill, but the great majority are the victims of dyes, bleaches, or washes. One barber, whose clientele is made up largely of the children of Murray hill, has a book showing 60 appointments a fortnight for the last two months with ladies of social importance. The customers merely wished to make arrangements for having their heads shaved every two weeks to get their hair started growing. All the engagements were for morning hours. And in no instance, strangely enough, was there a request for shorn tresses. At home, in the bosom of their families and with their intimate friends, these foolish and fashionable dames and belles are unsightly enough, but for the sake of eliminating the straw tresses and sere and coppery locks even shaved heads can be endured for eight or ten weeks.

The Irish use Taylor's flour because it is the whitest.

LABOR IN BRITISH GUIANA.

A recent census of British Guiana shows a population in the colony of about 300,000, of whom 117,000 are East Indian coolies, 5,000 Chinese, 15,000 Portuguese, and 20,000 negroes. The great increase in the number of Asiatic immigrants into the country, the coolies now forming more than a third of the whole population, has been made the subject of considerable legislation recently. These coolies are imported, under contract with the British government, to work on the sugar estates, and only remain in the colony a few years. The planters make application for laborers, and the coolies are allotted to them as they arrive. The law fixes the minimum daily rate of wages at 24 cents for an able-bodied adult and 16 cents for any other immigrant—that is, young women and children. And the coolies save enough from the pittance in five or six years to make them practically independent on their return to India.

THE VOICE OF THE PEOPLE

Reaches us—or should do so—through the ballot-box. This is the medium through which it ought to speak in clarion tones. But there are other means by which the people voice their sentiments, irrespective of politics, concerning matters of vital importance. Successful or unsuccessful are those popular admonitions as they are heard distinctly or faintly. But health, the grand desideratum, appeals to us all. The avenue is only cleared when the obstacles which bar its complete recovery are swept aside. Hostetter's Stomach Bitters has for nearly a third of a century occupied the first rank among proprietary remedies for debility, dyspepsia, constipation, disorder of the liver and kidneys, and as an effectual means of conquering and preventing malarial complaints. Since the advent of "la grippe" it has also signalized itself as a cure of the complaint.

A PATHETIC STORY OF TO-DAY.

In an elevated train the other morning sat a sweet-faced, gracious woman with her little son, a rollicking, bright, eager youngster of 7 or thereabouts. At one of the stations a gentleman entered with a woman—an insolent-eyed, yellow-haired, berouged creature. They sat down in one of the cross seats, not seeing the little woman behind them. But she saw them, and her lip quivered as she turned her head away. The lad, however, did not notice anything and continued talking eagerly to her in his childish treble. After a bit his voice seemed to strike the gentleman's ear as familiar. He laid down his paper, listened, and then turned around.

As his gaze met the child's those who were watching saw that the boy's face was the counterpart of the man's.

"Look, mamma!" said the child. She glanced up. The gentleman flushed, raised his hat gravely and resumed his paper.

"Why, that looks like my papa," said the boy. "My papa in the frame, who is dead, doesn't it, mamma?"

"Hush, hush, my son," she said, and then she arose and led him into the next car.—New York Recorder.

THE CONQUERING CENTRAL ROAD.

The New York Central is the greatest railroad in the world. It is the arterial center of the most magnificent commonwealth that enriches and embellishes the geography of the globe. It weds Lake Erie to the Atlantic, and is the crowning glory of the vast Vanderbilt system, whose growth and grandeur are among the miracles of modernism. It is the mightiest of the multitude of connecting links between the metropolis of the Western Hemisphere and all America. It furnishes the most extraordinary exemplification of the productive power and industrial magnitude of the continent. It typifies the triumph of commerce and civilization. Its wealth is fabulous, its business stupendous and its beneficence incalculable.—Troy Press.

JAPANESE FLOWER SHOW.

Often in the streets at night, especially on the night of sacred festivals (matsuri), one's attention will be attracted to some small booth by the spectacle of an admiring and perfectly silent crowd pressing before it. As soon as one can get a chance to look one finds there is nothing to look at but a few vases containing sprays of flowers, or perhaps some light gracious branches freshly cut from a blossoming tree. It is simply a little flower show, or, more correctly, a free exhibition of master skill in the arrangement of flowers. For the Japanese do not brutally chop off flower-heads to work up into meaningless masses of color, as we barbarians do; they love nature too well for that; they know how much the natural charm of flower depends upon its setting and mounting, its relation to leaf and stem, and they select a single graceful branch or spray just as nature made it. At first you will not, as a western stranger, comprehend such an exhibition at all; you are yet a savage in such matters compared with the commonest coolies about you. But even while you are still wondering at popular interest in this simple little show the charm of it will begin to grow upon you, will become a revelation to you; and despite your Occidental idea of self-superiority you will feel humbled by the discovery that all flower displays you have ever seen abroad were only monstrosities in comparison with the exquisite natural beauty of these few, simple sprays. You will also observe how much the white or pale-blue screen behind the flowers enhances the effect by lamp or lantern light. For the screen has been arranged with the special purpose of showing the exquisiteness of plant shadows; and the sharp silhouettes of sprays and blossoms cast thereon are beautiful beyond the imagining of any western decorative artist.—Atlantic Monthly.
